Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2012–0032]

Commercial Driver’s License (CDL) Standards; Daimler Trucks North America (Daimler) Exemption Application

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition; granting of application for exemption.

SUMMARY: FMCSA announces its decision to grant Daimler Trucks North America’s (Daimler) application for an exemption for two Daimler drivers to drive commercial motor vehicles (CMVs) in the United States without possessing the requisite commercial driver’s license (CDL) issued by one of the States. George Weiberg and Klaus-Dieter Holloh are field test engineers who will be test-driving Daimler vehicles on U.S. roads in order to meet future vehicle safety and environmental regulatory requirements and to promote the development of technology and advancements in vehicle safety systems and emissions reductions. Each of these drivers holds a valid German CDL but lacks the U.S. residency necessary to obtain a CDL issued by one of the States. FMCSA believes that the process for obtaining a German-issued CDL is comparable to or as effective as the U.S. CDL requirements and ensures that these drivers will likely achieve a level of safety that is equivalent to or greater than the level of safety that would be obtained in the absence of the exemption.

DATES: This exemption is effective April 17, 2012, and expires on April 17, 2014.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31315 and 31316(e), FMCSA may grant an exemption from certain Federal Motor Carrier Safety Regulations (FMCSRs) (49 CFR part 350 et seq.) for up to 2 years. The Agency must find that the exemption will allow the applicant to implement more effective or efficient operations and “would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption” (49 CFR 381.305(a)). Exemptions are renewable for 2-year periods.

Daimler Application for Exemption

Daimler applied for an exemption for drivers George Weiberg and Klaus-Dieter Holloh from 49 CFR 383.23 of the CDL rules, requiring drivers operating CMVs to have a CDL issued by one of the States. A copy of the request for exemption is in the docket identified at the beginning of this notice. The exemption allows these two drivers to operate CMVs to support Daimler field tests to meet future vehicle safety and environmental regulatory requirements and to promote the development of technology and advancements in vehicle safety systems and emissions reductions. These Daimler drivers will typically drive for no more than 6 hours per day for 2 consecutive days, and 10 percent of the test driving will be on two-lane state highways, while 90 percent will be on interstate highways. The driving for each driver will consist of no more than 200 miles per day for a total of 400 miles during a two-day period on a quarterly basis.

49 CFR 383.21 requires CMV drivers in the United States to have a CDL issued by a State. Weiberg and Holloh are citizens and residents of Germany. Only residents of a State can apply for a CDL.1 Without the exemption,

1 Although 49 CFR 383.23 indicates that these drivers could obtain a nondomiciled CDL, few
