

Exchange order-type changes, as opposed to a series of technology releases. The Commission finds that waiving the 30-day operative delay is consistent with the protection of investors and the public interest because it will allow NYSE Arca to implement the proposed rule change along with other technology changes, which should facilitate a more seamless transition for members and customers alike. Accordingly, the Commission designates the proposal operative upon filing.⁹

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-67035; File No. SR-ISE-2012-37]

Self-Regulatory Organizations; International Securities Exchange, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Terminate a Pilot Program Related to an Incentive Plan for Certain Foreign Currency Options Traded on the Exchange and To Make a Technical Change to the Schedule of Fees

May 21, 2012.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Exchange Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on May 8, 2012, the International Securities Exchange, LLC (the "Exchange" or the "ISE") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit

comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The ISE proposes to terminate a pilot program related to an incentive plan for certain Foreign Currency ("FX") options traded on the Exchange and to make a technical change to its Schedule of Fees. The text of the proposed rule change is available on the Exchange's Web site (<http://www.ise.com>), at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to terminate a pilot program related to an incentive plan for certain FX options traded on the Exchange and to make a technical change to its Schedule of Fees. First, the Exchange currently trades a number of FX options, including options on the New Zealand dollar ("NZD"), the Mexican peso ("PZO"), the Swedish krona ("SKA"), the Brazilian real ("BRB"), the Australian dollar ("AUX"), the British pound ("BPX"), the Canadian dollar ("CDD"), the euro ("EUI"), the Japanese yen ("YUK") and the Swiss franc ("SFC").³ On August 3, 2009, the Exchange adopted an incentive plan applicable to market makers in NZD, PZO and SKA,⁴ and on January 19, 2010, added BRB to the

³ The Commission previously approved the trading of options on NZD, PZO, SKA, BRB, AUX, BPX, CDD, EUI, YUK and SFC. See Securities Exchange Act Release No. 55575 (April 3, 2007), 72 FR 17963 (April 10, 2007) (SR-ISE-2006-59).

⁴ See Securities Exchange Act Release No. 60536 (August 19, 2009), 74 FR 43204 (August 26, 2009) (SR-ISE-2009-59).

⁹ For purposes only of waiving the 30-day operative delay, the Commission has considered the proposed rule change's impact on efficiency, competition, and capital formation. 15 U.S.C. 78c(f).

incentive plan,⁵ and on March 1, 2011, added AUX, BPX, CDD, EUI, YUK and SFC to the incentive plan.⁶

The Exchange adopted the incentive plan to promote trading in NZD, PZO SKA, BRB, AUX, BPX, CDD, EUI, YUK and SFC (“Incentive Plan Symbols”). Pursuant to the incentive plan, the Exchange waives the transaction fees for the Early Adopter⁷ FXPM⁸ and all Early Adopter FXCM⁹ that make a market in the Incentive Plan Symbols for as long as the incentive plan is in effect. Further, pursuant to a revenue sharing agreement entered into between an Early Adopter Market Maker and ISE, the Exchange pays the Early Adopter FXPM forty percent (40%) of the transaction fees collected on any customer trade in the Incentive Plan Symbols and pays up to ten (10) Early Adopter FXCMs twenty percent (20%) of the transaction fees collected for trades between a customer and that FXCM in the Incentive Plan Symbols.

Market makers interested in the [sic] participating in the incentive plan are required to enroll by a certain date. Since the inception of the incentive plan, the Exchange has continuously extended the date by which market makers may join the incentive plan,¹⁰ with the most recent extension expiring on March 30, 2012.¹¹ The Exchange notes that the incentive plan has not achieved its intended objective of attracting more market makers and therefore, the Exchange has decided to no longer extend the date by which market makers may join the incentive plan. With this proposed rule change,

the Exchange is essentially closing the window for market makers to join the incentive plan. The Exchange notes that while market makers will no longer be able to enroll in the incentive plan, those market makers that enrolled in the incentive plan on or before March 30, 2012 will continue to participate in the incentive plan. The Exchange proposes to reflect this change on its Schedule of Fees by amending the text that reflects the incentive plan.

Second, the Exchange recently filed a proposed rule change to amend an existing fee cap program and a related service fee (“Fee Cap Filing”).¹² In the Fee Cap Filing, the Exchange deleted what was previously footnote 2 on page 17 of the Schedule of Fees and renumbered what was previously footnote 3 to be footnote 2. The previous footnote 3, which is now footnote 2, references a discount available to subscribers of the Exchange’s various market data products. In the Fee Cap Filing, the Exchange failed to renumber footnote 3 in the body of the Schedule of Fees as footnote 2. The Exchange proposes to make that change with this filing.

2. Statutory Basis

The Exchange believes that its proposal to clarify its Schedule of Fees is consistent with Section 6(b) of the Securities and Exchange Act of 1934 (the “Exchange Act”)¹³ in general, and furthers the objectives of Section 6(b)(4) of the Exchange Act¹⁴ in particular, in that it is an equitable allocation of reasonable dues, fees and other charges among Exchange members and other persons using its facilities. In particular, the Exchange believes that because the incentive plan has not achieved its intended objective of attracting more market makers, it is reasonable for ISE to no longer permit market makers to enroll in the incentive plan. The Exchange believes the proposed rule change is also reasonable because it corrects a footnoting error and thereby provides greater transparency to the Exchange’s Schedule of Fees. The Exchange notes that the proposed rule change is also equitably allocated and not unfairly discriminatory in that it treats similarly situated market participants in the same manner, i.e., all Exchange market makers are now excluded from enrolling in the incentive plan.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Exchange Act.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Exchange Act.¹⁵ At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Exchange Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Electronic Comments

- Use the Commission’s Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these

statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

BX is proposing to clarify the effect that the methods of order entry have on the processing of a Price to Comply Order, as described in Rule 4751(f)(7).³ A Price to Comply Order allows a member firm to quote aggressively and still comply with the locked and crossed markets provisions of Regulation NMS.⁴

As part of its relaunch of an equities market in January 2009, BX adopted substantially similar equities rules to that of its sister exchange The NASDAQ Stock Market LLC ("NASDAQ"), including the Price to Comply Order type under Rule 4751(f)(7).⁵ NASDAQ amended its Rule 4751(f)(7) in June 2008.⁶ Prior to June 2008, if at the time of entry on NASDAQ a Price to Comply Order would create a violation of SEC Rule 610(d) by locking or crossing the protected quote of an external market or would cause a violation of SEC Rule 611 by trading through such a protected quote, the order was converted by the NASDAQ system to a Non-Displayed Order, as defined in NASDAQ Rule 4751(e)(3),⁷ and re-priced to the current low offer (for bids) or to the current best bid (for offers). Thereafter, such a Non-Displayed Order would be cancelled by the NASDAQ system if the market moved through the price of the order after the order was accepted.

The June 2008 amendment changed how the NASDAQ Price to Comply Order operates so that a locking or crossing order is no longer converted to a Non-Displayed Order, but rather is displayed at the most aggressive price

³ "Price to Comply Order" is an order such that, if, at the time of entry, it would lock or cross the quotation of an external market, the order will be priced to the current low offer (for bids) or to the current best bid (for offers) and displayed at a price one minimum price increment lower than the offer (for bids) or higher than the bid (for offers).

⁷ "Non-Displayed Order" is a limit order that is not displayed in the NASDAQ system, but nevertheless remains available for potential execution against all incoming orders until executed in full or cancelled. BX's definition under Rule 4751(e)(3) mirrors that of NASDAQ's.
