DEPARTMENT OF THE TREASURY

Finding That JSC CredexBank Is a Financial Institution of Primary Money Laundering Concern

AGENCY: The Financial Crimes Enforcement Network ("FinCEN"), Treasury.

ACTION: Notice of finding.

SUMMARY: Pursuant to the authority contained in 31 U.S.C. 5318A, the Secretary of the Treasury, through his delegate, the Director of FinCEN, finds that reasonable grounds exist for concluding that JSC CredexBank is a financial institution of primary money laundering concern.

DATES: The finding made in this notice is effective as of May 25, 2012.

FOR FURTHER INFORMATION CONTACT:

Copies of the submission(s) may be obtained by calling (202) 927–5331, or email at OIRA Submission@OMB.EOP.GOV and (2) Treasury PRA Clearance Officer, 1750 Pennsylvania Ave. NW., Suite 8140, Washington, DC 20220, or at PRA@treasury.gov.

Bureau of the Public Debt (BPD)

OMB Number: 1535–0012.

Type of Review: Extension without change of a currently approved collection.

Title: Request by Fiduciary for Reissue of United States Savings Bonds.

Form: PD F 1455.

Abstract: Used by fiduciary to request distribution of U.S. Savings Bonds to the person(s) entitled.

Affected Public: Individuals or Households.

Estimated Total Burden Hours: 8,850.

OMB Number: 1535–0013.

Type of Review: Revision of a currently approved collection.

Title: Claim for Lost, Stolen or Destroyed U.S. Savings Bonds and Supplemental Statement For U.S. Securities.

Form: PD F 1048; PD F 2243.

Abstract: Used by owner or others having knowledge to request substitutes securities or payment of lost, stolen or destroyed securities.

Affected Public: Individuals or Households.

Estimated Total Burden Hours: 24,000.

OMB Number: 1535–0136.

Type of Review: Revision of a currently approved collection.

Title: Application for Refund of Purchase Price of United States Savings Bonds for Organizations.

Form: PD F 5410.

Abstract: Used by an organization to request refund of purchase price of United States Savings Bonds.

Affected Public: Private Sector: Businesses or other for-profits.

Estimated Total Burden Hours: 50.

Dawn D. Wolfgang.

Treasury PRA Clearance Officer.

[FR Doc. 2012–12776 Filed 5–24–12; 8:45 am]

BILLING CODE 4810–39–P
money laundering concern, the Secretary is authorized to impose one or more of the special measures in section 311 to address the specific money laundering risks. Section 311 provides a range of special measures that can be imposed individually, jointly, in any combination, and in any sequence. Aiken imposing special measures, the statute requires the Secretary to consult with appropriate federal agencies and other interested parties and to consider the following specific factors:

- Whether similar action has been or is being taken by other nations or multinational groups;
- Whether the imposition of any particular special measures would create a significant competitive disadvantage, including any undue cost or burden associated with compliance, for financial institutions organized or licensed in the United States;
- The extent to which the action or the timing of the action would have a significant adverse systemic impact on the international payment, clearance, and settlement system, or on legitimate business activities involving the particular jurisdiction; and
- The effect of the action on the United States national security and foreign policy.

B. JSC (“Joint Stock Company”) CredexBank

JSC CredexBank (“Credex”) is a depository institution located and licensed in the Republic of Belarus that primarily serves corporate entities. Originally established on September 27, 2001, as Nordic Investment Bank Corporation by Ximex Executive Limited (“Ximex”), the bank changed its name to Northern Investment Bank on April 5, 2006, and then to the current name of JSC CredexBank on February 12, 2007. Credex is 96.82% owned by Vicpart Holding SA, based in Fribourg, Switzerland. With 169 employees and a total capitalization of approximately $19 million, the bank currently ranks as the 22nd largest in total assets among 31 commercial banks in Belarus. Credex has six domestic branches and one representative office in the Czech Republic. While the majority of its correspondent banking relationships are with domestic banks, Credex maintains numerous correspondent relationships with Russian banks, and also single correspondent relationships in Latvia, Germany, and Austria. According to available public information, Credex does not have any direct U.S. correspondent relationships.

C. Belarus

The concentration of power in the hands of the Presidency and the lack of a system of checks and balances among the various branches of government are the greatest hindrances to the rule of law and transparency of governance in Belarus. In particular, economic decision-making is highly concentrated within the top levels of government, and financial institutions have little autonomy.

Under Belarusian law, most government transactions and those sanctioned by the President are exempt from reporting requirements. This is particularly worrisome given well-documented cases of public corruption in Belarus, which has led the United States Government (“USG”) in recent years to take action to protect the U.S. financial system from abuse by the Belarusian government. In 2006, the President signed Executive Order (“E.O.”) 13405, which blocks the property and interests in property of Belarusian President Alexander Lukashenko and nine other individuals listed in the Annex, as well as authorizing subsequent designations of other individuals and entities determined to be responsible for or to have participated in public corruption, human rights abuses, or political oppression. Pursuant to this E.O., the U.S. Department of the Treasury (“Treasury”) in November 2007 designated the state petrochemical conglomerate, Belneftekhim, for being controlled by President Lukashenko. Separately, Treasury in April 2006 issued an advisory highlighting abuse and theft of public resources by senior Belarusian regime elements, including senior executives in state-owned enterprises. Furthermore, in April 2004, Treasury identified Infobank, Minsk (later renamed Pjsc Trustbank) as a primary money laundering concern under section 311 for laundering funds for the former Iraqi regime of Saddam Hussein. At the time of that action, Commission Perceptions Index (http://archive.transparency.org/content/download/64426/1030807). Belarus ranked 143 out of 182 countries, with 1 being least corrupt.

C. Belarus

The concentration of power in the hands of the Presidency and the lack of a system of checks and balances among the various branches of government are the greatest hindrances to the rule of law and transparency of governance in Belarus. In particular, economic decision-making is highly concentrated within the top levels of government, and financial institutions have little autonomy.

Under Belarusian law, most government transactions and those sanctioned by the President are exempt from reporting requirements. This is particularly worrisome given well-documented cases of public corruption in Belarus, which has led the United States Government (“USG”) in recent years to take action to protect the U.S. financial system from abuse by the Belarusian government. In 2006, the President signed Executive Order (“E.O.”) 13405, which blocks the property and interests in property of Belarusian President Alexander Lukashenko and nine other individuals listed in the Annex, as well as authorizing subsequent designations of other individuals and entities determined to be responsible for or to have participated in public corruption, human rights abuses, or political oppression. Pursuant to this E.O., the U.S. Department of the Treasury (“Treasury”) in November 2007 designated the state petrochemical conglomerate, Belneftekhim, for being controlled by President Lukashenko. Separately, Treasury in April 2006 issued an advisory highlighting abuse and theft of public resources by senior Belarusian regime elements, including senior executives in state-owned enterprises. Furthermore, in April 2004, Treasury identified Infobank, Minsk (later renamed Pjsc Trustbank) as a primary money laundering concern under section 311 for laundering funds for the former Iraqi regime of Saddam Hussein. At the time of that action,
Infobank was widely reported to be a bank specializing in financial transactions related to arms exports, including procuring and financing weapons and military equipment for several nations deemed by the United States to be State Sponsors of Terrorism.\(^{24}\)

Since January 2011, in response to the repression of democratic activists following fraudulent presidential elections in Belarus, the European Union (“EU”) has imposed a series of increasingly stiff sanctions against Belarus, including a travel ban and assets freeze extending to some 200 Belarusian officials and an assets freeze of three companies closely associated with President Lukashenko.\(^{25}\) Most recently, on March 23, 2012, the EU reinforced restrictive measures against the Belarusian government by adding 12 individuals and 29 entities to the sanctions list for their role in supporting the regime.\(^{26}\)

II. Analysis of Factors

Based upon a review and analysis of the administrative record in this matter, consultations with relevant Federal agencies and departments, and after consideration of the factors enumerated in section 311, the Director of FinCEN has determined that reasonable grounds exist for concluding that Credex is a financial institution of primary money laundering concern. In addition to the bank’s location in a high risk jurisdiction, FinCEN has reason to believe that Credex (1) has engaged in high volumes of transactions that are indicative of money laundering on behalf of shell corporations; and (2) has a history of ownership by shell corporations\(^ {27}\) whose own lack of

transparency contributes to considerable uncertainty surrounding Credex’s beneficial ownership. Taken as a whole, the lack of transparency associated with Credex indicates a high degree of money laundering risk and vulnerability to other financial crimes. The factors relevant to this finding are detailed below:

**A. The Extent to Which Credex Has Been Used To Facilitate or Promote Money Laundering in or Through the Jurisdiction**

Information made available to the USG shows that since 2006, Credex has engaged in highly questionable patterns of financial transactions that are indicative of money laundering. Such activity includes: high volumes of transactions involving foreign shell corporations incorporated and operating in high risk jurisdictions; disproportionate and evasive transactional behavior; and nested account\(^ {28}\) activity.

The facts surrounding these transactions are consistent with typical “red flags” regarding shell company activity identified in most banking standards, including wire transfer volumes that are extremely large in proportion to the asset size of the bank; transacting businesses sharing the same address, providing only a registered agent’s address, or having other address inconsistencies; and frequent involvement of multiple jurisdictions or beneficiaries located in higher-risk offshore financial centers.\(^ {29}\)

For example, large-dollar transactions originated from multiple shell corporations located at shared location are easy and inexpensive to form and operate. Additionally, ownership and transactional information on these entities can be concealed from regulatory and law enforcement authorities. See “U.S. Money Laundering Threat Assessment” U.S. Money Laundering Threat Assessment Working Group, December 2005 (http://www.treasury.gov/resource-center/terrorist-illicit-finance/Documents/mta.pdf), pp. 47–49.

**B. Money Laundering Red Flags: Wire Transfers**

The facts surrounding these transactions are consistent with typical “red flags” regarding shell company activity identified in most banking standards, including wire transfer volumes that are extremely large in proportion to the asset size of the bank; transacting businesses sharing the same address, providing only a registered agent’s address, or having other address inconsistencies; and frequent involvement of multiple jurisdictions or beneficiaries located in higher-risk offshore financial centers.\(^ {29}\)

For example, large-dollar transactions originated from multiple shell corporations located at shared formation addresses were subsequently transferred through Credex to suspected shell corporations that also shared the same formation addresses in various jurisdictions. Specifically, between June and July 2007, two shell corporations located at known company formation addresses in the United Kingdom (“UK”) and the British Virgin Islands (“BVI”) made multiple payments totaling millions of U.S. dollars by utilizing accounts at Credex and another foreign financial institution for the benefit of a separate BVI company. Overall, numerous suspicious transactions (1) occurred in spurs for a brief period, in repetitive patterns, and then ceased without explanation, (2) were for unrelated goods and services that did not correspond to an apparent business relationship between the transacting parties, and (3) were remitted through multiple foreign banks with U.S. correspondent accounts with vague payment details. These patterns strongly suggest a failure of anti-money laundering/countering the financing of terrorism (AML/CFT) controls at Credex and/or willfulness by the bank in carrying out transactions on behalf of shell corporations.

Furthermore, Credex has engaged in high volumes of transactions that are significantly disproportionate to the bank’s level of capitalization. For example, from January to March 2010, information made available to the USG shows that Credex transferred nearly $1 billion to shell corporations in multiple jurisdictions—a substantial amount of wire activity for a bank of Credex’s size. From 2007 to 2009, Credex averaged approximately $10 million in capitalization.\(^ {30}\) In addition, Credex wire transaction customers during this period were mostly parties sending money from Credex accounts. However, there were no observable corresponding inflows, which one would expect at a legitimate commercial bank.

Information made available to the USG also shows that Credex engages in evasive conduct in a significant portion of its financial transactions. In some instances, critical information identifying Credex as the originating financial institution was omitted from the wire transaction details, or the stated purpose of the transaction involving Credex accountholders was inconsistent with the expected business profile of those companies. Such disproportionate volumes of activity compared to the bank’s size, coupled with evasive behaviors, strongly suggest that Credex is vulnerable to money laundering and other financial crimes.

\(^{24}\) Bankers Almanac (2012).
Credex maintains a total of 66 correspondent accounts,\textsuperscript{31} including more than 20 U.S. dollar accounts, almost exclusively with Russian and Belarusian financial institutions.\textsuperscript{32} This number of correspondent accounts is highly disproportionate relative to Credex’s size—the bank’s total assets were approximately $46 million as of the end of 2010.\textsuperscript{33} For example, the largest bank in Belarus—whose assets number more than $14 billion—only has a total of 18 correspondent accounts.\textsuperscript{34} This indicates the intent to obfuscate the movement of funds; there is no logical explanation or purpose for maintaining so many correspondent accounts while incurring the operational costs and fees associated with them.

According to available public information, Credex does not have direct correspondent relationships with U.S. financial institutions.\textsuperscript{35} However, information made available to the USG indicates that transactions involving U.S. dollars are conducted via multiple “nested accounts” with European banks and money service businesses\textsuperscript{36} that allowed indirect access to the U.S. financial system. For example, of 91 wires totaling approximately $10 million conducted through Credex, 69 wires totaling $9 million involved apparent nesting activity via U.S. correspondent accounts, and the remaining 22 wire transfers totaling over $1 million were sent by order of, or for the benefit of, shell-like entities, some of which were also involved in the 69 nested wires.

Given this evasive conduct, U.S. financial institutions remain particularly at risk of indirectly providing Credex with anonymous access to the U.S. financial system. For example, of 91 wires totaling approximately $10 million conducted through Credex, 69 wires totaling $9 million involved apparent nesting activity via U.S. correspondent accounts, and the remaining 22 wire transfers totaling over $1 million were sent by order of, or for the benefit of, shell-like entities, some of which were also involved in the 69 nested wires.

As detailed above, FinCEN has reasonable grounds to conclude that Credex is being used to promote or facilitate international money laundering, and is therefore an institution of primary money laundering concern. Currently, there are no protective measures that specifically target Credex. Thus, finding Credex to be a financial institution of primary money laundering concern, which would allow consideration by the Secretary of special measures to be imposed on the institution under section 311, is a necessary first step to prevent Credex from facilitating money laundering or other financial crime through the U.S. financial system. The finding of primary money laundering concern will bring any criminal conduct occurring at or through Credex to the attention of the international financial community and will further limit the bank’s ability to be used for money laundering or for other criminal purposes.

B. The Extent to Which Credex Is Used for Legitimate Business Purposes in the Jurisdiction

The lack of transparency—regarding the jurisdiction, beneficial ownership of the bank (discussed in Section II (D), below), and transactional activity with shell corporations—makes it difficult to assess the extent to which Credex is engaged in legitimate business. Thus, any legitimate use of Credex is significantly outweighed by the apparent use of Credex to facilitate or promote money laundering and other financial crimes.

C. The Extent to Which Such Activity Is Sufficient To Ensure, With Respect to Transactions Involving Credex, That the Purposes of the BSA Continues To Be Fulfilled, and To Guard Against International Money Laundering and Other Financial Crimes

As detailed above, FinCEN has reasonable grounds to conclude that Credex is being used to promote or facilitate international money laundering, and is therefore an institution of primary money laundering concern. Currently, there are no protective measures that specifically target Credex. Thus, finding Credex to be a financial institution of primary money laundering concern, which would allow consideration by the Secretary of special measures to be imposed on the institution under section 311, is a necessary first step to prevent Credex from facilitating money laundering or other financial crime through the U.S. financial system. The finding of primary money laundering concern will bring any criminal conduct occurring at or through Credex to the attention of the international financial community and will further limit the bank’s ability to be used for money laundering or for other criminal purposes.

D. Other Relevant Factor: Lack of Transparency

As outlined above, the pervasive lack of transparency surrounding Credex’s business activities—including its high volume of suspicious transactions with shell corporations, the substantial uncertainty surrounding the transacting parties and purposes involved in those transactions, the bank’s evasive conduct, and its operation in a high risk jurisdiction—makes it virtually impossible to discern the extent to which the bank is engaged in legitimate business, and most importantly, to evaluate its capacity to identify and mitigate risk and illicit finance. This situation is exacerbated by a similar lack of transparency in the bank’s ownership, which has passed from one shell corporation to another, creating considerable uncertainty as to the identity of the true beneficial owner(s).

Credex’s original registered owner, Ximex,\textsuperscript{37} displays numerous characteristics of a shell corporation. Listed at 12–16 Clerkenwell Rd, London, United Kingdom,\textsuperscript{38} Ximex shares the same mailing address as another firm—whose primary activities are formation and servicing of international business companies, as well as tax and financial planning.\textsuperscript{39} Ximex is owned by “Imex Executive, Limited,” a company registered to the address of a BVI company formation agent.\textsuperscript{40} Additionally, Ximex is listed by the UK’s Financial Services Authority (“FSA”) among firms and/or individuals who are not authorized to conduct regulated investment activities.\textsuperscript{41} The FSA is an independent body that regulates the financial services industry in the UK.\textsuperscript{42 43}

Since October 2009, Credex has been owned by Vicpart Holding SA (“Vicpart”), based in Fribourg, Switzerland.\textsuperscript{44} Publicly available information about Vicpart reveals significant inconsistencies and gaps that raise concerns about the true nature and purpose of the company. Vicpart shares the same address with more than 200 other companies, some of which are in liquidation.\textsuperscript{45} These companies in liquidation merit particular scrutiny because at least one Financial Action Task Force (“FATF”) study has identified the practice of dissolving companies rapidly after creation as a risk factor signaling the potential misuse of corporate vehicles.\textsuperscript{46} The Vicpart Web site is currently inaccessible to the public. Prior to its shutdown, the Web site stated that the purpose of the company is the management of

\textsuperscript{31} These appear to be “nostro” accounts, which are commonly used for currency settlement.

\textsuperscript{32} Bankers Almanac (2012).

\textsuperscript{33} Id.

\textsuperscript{34} Id.

\textsuperscript{35} Bankers Almanac (2012).

\textsuperscript{36} Additionally, according to Credex’s Web site, the bank performs transfers through international money transfer services (Aeilik, Leader, Western Union, and Moneygram) without opening an account. See “General Information,” CredexBank Web site (http://www.en.credexbank.by/bank/general).

\textsuperscript{38} See “Imex Executive Limited,” (http://www.biz-info.co.uk/ximex+executive+limited_04605867.html).

\textsuperscript{44} Bankers Almanac (2012).

financial, industrial, and commercial participation, as well as real estate operation.47 Separately, a global business registry indicates that Vicpart is registered as a joint stock company whose primary line of business is investment management.48 However, Creditex is listed as its only holding.49

Adding to these concerns are allegations of criminal involvement by Vicpart’s management. According to information made available to the USG, two former Vicpart board members were charged with criminal activity, including document forgery. These individuals may have used companies registered to Vicpart’s current address as part of their alleged criminal activity. Meanwhile, aside from the listing of a single individual as both a Vicpart director and the sole authorized signatory for the company, there is no other publicly available information on the current composition of Vicpart’s board of directors.50

Although the Creditex Web site currently states that the single individual listed as a Vicpart director is also the “beneficial owner” of the company,51 the USG has concerns about the accuracy of this information. According to publicly available information, the individual named as Vicpart’s beneficial owner has also been identified by global business registries as being involved with at least 30 different companies, many of which are in liquidation and list the individual’s personal residence as their address.52 This involvement with a large number of companies, many of which are in liquidation and/or share the same address, raises concerns that the individual may function purely as a formation agent or nominal owner whose identification as a company’s owner in public sources may be intended to shield the true beneficial owners from scrutiny.

The ambiguity surrounding Vicpart’s ownership is particularly concerning because the company also exhibits several indicators of typical shell corporation activity, and owns a bank that has been engaged in highly questionable patterns of transactions that are indicative of money laundering. For example, while Vicpart’s Web site states that the company was incorporated in 1999,53 it does not appear to have been active until June 2009—four months prior to acquiring Creditex from another shell corporation, Ximex in October 2009.54 This long period of dormancy followed by involvement in a major transaction bears the hallmark of Vicpart being a “shelf company.”55 Additionally, Vicpart’s financial statements at the time of acquisition showed no balance sheet assets except for 100,000 Swiss Francs (estimated $108,000) in share capital.56

III. Finding

Based on the foregoing factors, the Director of FinCEN hereby finds that Creditex is a financial institution of primary money laundering concern.

Peter S. Alvarado,
Deputy Director, Financial Crimes Enforcement Network.

BILLING CODE 4810–02–P

DEPARTMENT OF THE TREASURY
Office of the Comptroller of the Currency

Agency Information Collection Activities: Proposed Information Collection; Submission for OMB Review

AGENCY: Office of the Comptroller of the Currency (OCC), Treasury.

ACTION: Notice and request for comment.

SUMMARY: The OCC, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on a continuing information collection, as required by the Paperwork Reduction Act of 1995. An agency may not conduct or sponsor, and a respondent is not required to respond to, an information collection unless it displays a currently valid OMB control number. The OCC is soliciting comment concerning its information collection titled, “Registration of Mortgage Loan Originators.” The OCC is also giving notice that it has sent this collection to OMB for review.

DATES: Comments must be received by June 25, 2012.

ADDRESSES: Communications Division, Office of the Comptroller of the Currency, Mailstop 2–3, Attention: 1557–0243, 250 E Street SW., Washington, DC 20219. In addition, comments may be sent by fax to (202) 874–5274 or by electronic mail to regs.comments@occ.treas.gov. You may personally inspect and photocopy comments at the OCC, 250 E Street SW., Washington, DC 20219. For security reasons, the OCC requires that visitors make an appointment to inspect comments. You may do so by calling (202) 874–4700. Upon arrival, visitors will be required to present valid government-issued photo identification and to submit to security screening in order to inspect and photocopy comments.

Additionally, please send a copy of your comments by mail to: OCC Desk Officer, 1557–0243, U.S. Office of Management and Budget, 725 17th Street NW., #10235, Washington, DC 20503, or by fax to (202) 395–6974.

FOR FURTHER INFORMATION CONTACT: You can request additional information or a copy of the collection from Mary H. Gottlieb, OCC Clearance Officer, (202) 874–5090, Legislative and Regulatory Activities Division, Office of the Comptroller of the Currency, 250 E Street SW., Washington, DC 20219.

SUPPLEMENTARY INFORMATION: The OCC is requesting extension of OMB approval for this collection. There have been no changes to the requirements of the regulations, however, they have been transferred to the Bureau of Consumer Financial Protection (CFPB) pursuant to title X of the Dodd-Frank Wall Street Reform and Consumer Protection Act, Public Law 111–203, 124 Stat. 2010, July 21, 2010 (Dodd–Frank Act), and republished as CFPB regulations (76 FR 78483 (December 19, 2011)). The burden estimates have been revised to remove the burden for OCC-regulated institutions of $10 billion in assets, now carried by CFPB pursuant to section 1025 of the Dodd–
