On April 19, 2007, the Department of Energy (DOE) issued Order No. EA-321, EA-322, EA-323, EA-324 and EA-325, authorizing the Emera Subsidiaries to transmit electric energy from the United States to Canada as power marketers for a five-year term. The current export authorities in Order No EA-321, EA-322, EA-323, EA-324 and EA-325 expired on April 19, 2012. On April 19, 2012, Emera filed five separate applications with DOE for renewal of those authorities for an additional five-year term.

In its application, Emera states that the subsidiaries do "not own or control any electric power generation or transmission facilities and does not have a franchised electric power service area." Emera states that the electric power proposed to be exported to Canada will be purchased from electric utilities and federal power marketing agencies pursuant to voluntary agreements and will be surplus to the system needs of the entities selling the power to Emera.

The existing international transmission facilities to be utilized by Emera have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.
