During the enforcement period, entry into, transiting or anchoring in the regulated area is prohibited to all vessels not registered with the sponsor as participants or official patrol vessels, unless specifically authorized by the Captain of the Port (COTP) Mobile or a designated representative.

DATES: The regulations in 33 CFR 100.801, Table 1, Table No. 99 and Sector Mobile No. 12; and 33 CFR 165.801, Table 1, Table No. 144 and Sector Mobile No. 3 will be enforced on June 1 and June 2, 2012.

FOR FURTHER INFORMATION CONTACT: If you have questions on this notice of enforcement, call or email LT Lenell J. Carson, Coast Guard Sector Mobile, Waterways Division; telephone 251-441-5940 or email Lenell.J.Carson@uscg.mil.

SUPPLEMENTARY INFORMATION: On June 1 and June 2, 2012, the Coast Guard will enforce the Special Local Regulation in 33 CFR 100.801, Table 1, Table No. 99 and Sector Mobile No. 12, and the Safety Zone in 33 CFR 165.801, Table 1, Table No. 144 and Sector Mobile No. 3 for the annual Billy Bowlegs Pirate Festival.

Under the provisions of 33 CFR 100.801, all persons and vessels not registered with the sponsor as participants or official patrol vessels are

considered spectators. The “official patrol vessels” consist of any Coast Guard, state or local law enforcement and sponsor provided vessels assigned or approved by the Commander, Eighth Coast Guard District, to patrol the event. Spectator vessels desiring to transit the regulated area listed in § 100.801 Table 1, Table No. 99 and Sector Mobile No. 12 may do so only with prior approval of the Patrol Commander and when so directed by that officer and will be operated at a no wake speed in a manner which will not endanger participants in the event or any other craft. The Patrol Commander may forbid and control the movement of all vessels in the regulated area. When hailed or signaled by an official patrol vessel, a vessel shall come to an immediate stop and comply with the directions given. Failure to do so may result in expulsion from the area, citation for failure to comply, or both. Any spectator vessel may anchor outside the regulated area, but may not anchor in, block, or loiter in a navigable channel. The Patrol Commander may terminate the event or the operation of any vessel at any time it is deemed necessary for the protection of life or property. The Patrol Commander will terminate enforcement of the special regulations at the conclusion of the event.

Under the provisions of 33 CFR 165.801, entry into the safety zone listed in Table 1, Table No. 144 and Sector Mobile No. 3 is prohibited unless authorized by the Captain of the Port or a designated representative. Safety Zones; Fourth of July Fireworks Displays Within the Captain of the Port Charleston Zone, SC

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing five temporary safety zones during Fourth of July Fireworks Displays on certain navigable waterways in Hilton Head Island, Mount Pleasant, Murrells Inlet, North Charleston, and North Myrtle Beach, South Carolina. These safety zones are necessary to protect the public from the hazards associated with launching fireworks over navigable waters of the United States. Persons and vessels are prohibited from entering, transiting through, anchoring in, or remaining within any of the safety zones unless authorized by the Captain of the Port Charleston or a designated representative.

DATES: This rule is effective from 8:30 p.m. until 10:30 p.m. on July 4, 2012.

SUPPLEMENTARY INFORMATION:

Regulatory Information

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because the Coast Guard did not receive necessary information regarding the fireworks displays until April 30, 2012. As a result, the Coast Guard did not have sufficient time to publish an NPRM and to receive public comments prior to the fireworks displays. Any delay in the effective date of this rule would be contrary to the public interest because immediate action is needed to minimize potential danger to the public during the fireworks displays.

Basis and Purpose

The legal basis for the rule is the Coast Guard’s authority to establish regulated navigation areas and other limited access areas: 33 U.S.C. 1231; 46 U.S.C. Chapter 701, 3306, 3703; 50 U.S.C. 191, 195; 33 CFR 1.05-1, 6.04-1, 6.04-6, 160.5; Public Law 107-295, 116 Stat. 2064; Department of Homeland Security Delegation No. 0170.1.

The purpose of the rule is to protect the public from the hazards associated with launching fireworks over navigable waters of the United States.

Discussion of Rule

Multiple fireworks displays are planned for Fourth of July celebrations throughout the Captain of the Port Charleston Zone. The fireworks will be launched from land, piers, or barges. The fireworks will explode over navigable waters of the United States.

The Coast Guard is establishing five temporary safety zones for Fourth of July Fireworks Displays on navigable waters of the United States within the Captain of the Port Charleston Zone. The five safety zones, with the specific enforcement period for each safety zone, are listed below.

1. *Hilton Head Island, South Carolina.* All waters within a 500 yard radius around the barge from which the fireworks will be launched, located on the Atlantic Intracoastal Waterway. This safety zone will be enforced from 8:30 p.m. until 10:30 p.m. on July 4, 2012.

2. *Mount Pleasant, South Carolina.* All waters within a 500 yard radius around the barge from which the fireworks will be launched, located on the Cooper River. This safety zone will be enforced from 8:30 p.m. until 9:50 p.m. on July 4, 2012.

3. *Murrells Inlet, South Carolina.* All waters within a 1,000 yard radius around Veterans Pier, from which the fireworks will be launched, located on the Atlantic Intracoastal Waterway. This safety zone will be enforced from 8:30 p.m. until 10:30 p.m. on July 4, 2012.

4. *North Charleston, South Carolina.* All waters within a 500 yard radius around the barge from which the fireworks will be launched, located on the Cooper River. This safety zone will be enforced from 8:30 p.m. until 10 p.m. on July 4, 2012.

5. *North Myrtle Beach, South Carolina.* All waters within a 500 yard radius around Cherry Grove Pier, from which the fireworks will be launched, located on the Atlantic Ocean. This safety zone will be enforced from 9 p.m. until 10:30 p.m. on July 4, 2012.

Persons and vessels are prohibited from entering, transiting through, anchoring in, or remaining within any of the safety zones unless authorized by the Captain of the Port Charleston or a designated representative. Persons and vessels desiring to enter, transit through, anchor in, or remain within any of the safety zones may contact the Captain of the Port Charleston via telephone at (843) 740-7050, or a designated representative via VHF radio on channel 16, to request authorization. If authorization to enter, transit through, anchor in, or remain within any of the safety zones is granted by the Captain of the Port Charleston or a designated representative, all persons and vessels receiving such authorization must comply with the instructions of the Captain of the Port Charleston or a designated representative. The Coast Guard will provide notice of the safety zones by Broadcast Notice to Mariners, Marine Safety Information Bulletins, and on-scene designated representatives.

Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses

based on 13 of these statutes or executive orders.

Regulatory Planning and Review

Executive Orders 13563, Improving Regulation and Regulatory Review, and 12866, Regulatory Planning and Review, direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This rule has not been designated a significant regulatory action under section 3(f) of Executive Order 12866. Accordingly, the Office of Management and Budget has not reviewed this regulation under Executive Order 12866.

The economic impact of this rule is not significant for the following reasons: (1) Each safety zone will be enforced for a maximum of 2 hours; (2) vessel traffic in the areas is expected to be minimal during the enforcement periods; (3) although persons and vessels will not be able to enter, transit through, anchor in, or remain within any of the safety zones without authorization from the Captain of the Port Charleston or a designated representative, they may operate in the surrounding areas during the enforcement periods; (4) persons and vessels may still enter, transit through, anchor in, or remain within the safety zones if authorized by the Captain of the Port Charleston or a designated representative; and (5) the Coast Guard will provide advance notification of the safety zones to the local maritime community by Broadcast Notice to Mariners and Marine Safety Information Bulletins.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule may affect the following

entities, some of which may be small entities: the owners or operators of vessels intending to enter, transit through, anchor in, or remain within any of the safety zones described in this rule during the respective enforcement periods. For the reasons discussed in the Regulatory Planning and Review section above, this rule will not have a significant economic impact on a substantial number of small entities.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we offer to assist small entities in understanding the rule so that they can better evaluate its effects on them and participate in the rulemaking process.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

A rule has implications for federalism under Executive Order 13132. Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or Tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in such an expenditure, we do discuss the

effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have Tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian Tribes, on the relationship between the Federal Government and Indian Tribes, or on the distribution of power and responsibilities between the Federal Government and Indian Tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these

standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule is categorically excluded, under figure 2–1, paragraph (34)(g), of the Instruction. This rule involves establishing five temporary safety zones that will be enforced for no more than two hours. An environmental analysis checklist and a categorical exclusion determination are available in the docket where indicated under **ADDRESSES**.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The EPA is making three separate and independent determinations. First, the EPA is determining that the Boston-Lawrence-Worcester (Eastern Massachusetts), MA-NH serious one-hour ozone nonattainment area met the applicable deadline of November 15, 2007, for attaining the one-hour National Ambient Air Quality Standard (NAAQS) for ozone.
