In the Fourth Report and Order, the Commission adopts the national and market-specific caps proposed in the Third Further Notice, FCC 11–105, and requires parties with more than 50 pending applications and/or more than one pending application in the markets identified in Appendix A of the Fourth Report and Order (the top 150 Arbitron markets plus markets with more than 4 pending translator applications) to request the dismissal of applications to comply with these limits. Applicants may request such dismissal by filing a letter with the Commission (“Dismissal Letter”) identifying the applications they wish to be dismissed. In the event that an applicant does not timely comply with these dismissal procedures, the Commission staff will first apply the national cap, retaining on file the first 50 filed applications and dismissing those that were subsequently filed. The staff will then dismiss all but the first filed application in each of the markets identified in Appendix A.

Needs and Uses: On March 19, 2012, the Commission adopted a Fourth Report and Order and Third Order on Reconsideration (“Fourth Report and Order”), FCC 12–29. It adopts the market-based dismissal policy proposed in the Third Further Notice, FCC 11–105, with certain modifications. Among other things, it gives all translator applicants a limited opportunity to amend their proposals. It holds that translator applicants in “spectrum available” markets may modify their proposals so long as they do not preclude any LPFM channel/point combination identified in the Bureau’s study (“Spectrum Available Amendments”). It further holds that translator applicants with proposals in “spectrum limited” markets will be allowed to modify their proposals to eliminate their preclusive impact on any of the LPFM point/channel combinations that would be available within the grid if all translator window applications in that market were dismissed (“Spectrum Limited Amendments”) (“Spectrum Available Amendments” and “Spectrum Limited Amendments” are collectively referred to herein as, “Amendments”). In addition, any translator applicant in any top 50 spectrum limited market must demonstrate that its out-of-grid proposal would not preclude the only LPFM station licensing opportunity at that location (“Top 50 Market Preclusion Showing”). Specifically, it needs to demonstrate either that no LPFM station could be licensed at the proposed transmitter site or, if an LPFM station could be licensed at the site, that an additional channel remains available for a future LPFM station at the same site.
