SUPPLEMENTARY INFORMATION:

Background

In a proposed rule¹ titled "Importation of Fresh Bananas from the Philippines into the Continental United States" and published in the **Federal Register** on April 16, 2012 (77 FR 22510-22514, Docket No. APHIS-2011-0028), we proposed to amend the regulations in 7 CFR part 319 to allow the importation of fresh bananas from the Philippines into the continental United States. We initiated this proposal in response to a request from the national plant protection organization (NPPO) of the Philippines.

To determine the potential pest risks inherent in allowing importation of fresh bananas from the Philippines, and to determine measures that might be effective in mitigating the pest risk, APHIS prepared a pest risk assessment and a risk management analysis. Based on the results of those studies, the proposed rule describes a systems approach under which bananas from the Philippines would have to be produced, packed, and transported in order to mitigate the potential risks associated with the importation. The systems approach is considered to be an appropriate safeguard to ensure that consignments of bananas from the Philippines would have a low likelihood of containing fruit with the potential to cause the introduction of a plant pest into the United States.

APHIS' review and analysis of the potential environmental impacts associated with allowing the importation of fresh bananas from the Philippines into the continental United States are documented in detail in an environmental assessment entitled "Importation of Bananas (*Musa* spp.) from the Philippines into the Continental United States" (April 2012). We are making this environmental assessment available to the public for review and comment. We will consider all comments that we receive on or before the date listed under the heading **DATES** at the beginning of this notice.

The environmental assessment may be viewed on the Regulations.gov Web site or in our reading room (see **ADDRESSES** above for a link to Regulations.gov and information on the location and hours of the reading room).

¹ To view the proposed rule, the environmental assessment, and the pest risk assessment, go to <http://www.regulations.gov/#!docketDetail;D=APHIS-2011-0028>.

You may request paper copies of the environmental assessment by calling or writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. Please refer to the title of the environmental assessment when requesting copies.

The environmental assessment has been prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500-1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372).

Done in Washington, DC, this 23rd day of May 2012.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.
