DEPARTMENT OF LABOR
Mine Safety and Health Administration
[OMB Control No. 1219–0121]

Proposed Extension of Existing Information Collection; Safety Standards for Roof Bolts in Metal and Nonmetal Mines and Underground Coal Mines

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Request for public comments.

SUMMARY: As part of its continuing effort to reduce paperwork and respondent burden, the Department of Labor conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and continuing collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine Safety and Health Administration is soliciting comments concerning the extension of the information collection for 30 CFR 56.3203, 57.3203, and 75.204(a) and (f)(6). OMB last approved this information collection request on September 28, 2009. The package expires on September 30, 2012.

DATES: All comments must be postmarked or received by midnight Eastern Time on July 31, 2012.

ADDRESSES: Comments concerning the proposed extension of the information collection related to safety standards for roof bolts in surface and underground metal and nonmetal mines and underground coal mines. MSHA is particularly interested in comments that:

1. Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility;
2. Evaluate the accuracy of the MSHA’s estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
3. Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
4. Address the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses), to minimize the burden of the collection of information on those who are to respond.

The public may examine publicly available documents, including the
NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 12–039]

NASA Advisory Council; Aeronautics Committee; UAS Subcommittee Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92–463, as amended, the National Aeronautics and Space Administration (NASA) announces a meeting of the Unmanned Aircraft Systems (UAS) Subcommittee of the Aeronautics Committee of the NASA Advisory Council. The meeting will be held for the purpose of soliciting, from the aeronautics community and other persons, research and technical information relevant to program planning.

DATES: Wednesday, June 27, 2012, 8 a.m. to 4:30 p.m., and Thursday, June 28, 2012, 8 a.m. to 3 p.m., Local Time.

ADDRESS: This meeting will take place at NASA Headquarters, 300 E Street SW., Room 6B42, Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: Ms. Brenda L. Mulac, Executive Secretary for the UAS Subcommittee of the Aeronautics Committee, National Aeronautics and Space Administration Headquarters, Washington, DC 20546, (202) 358–1578, or brenda.l.mulac@nasa.gov.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the capacity of the room. Any person interested in participating in the meeting by Webex and telephone should contact Ms. Brenda L. Mulac at (202) 358–1578 for the web link, toll-free number and passcode. The agenda for the meeting includes the following topics:

- Overview of the Integration of UAS into the National Airspace System Project Technical Challenges
- Overview of the Communications Subproject
- Overview of the Certification Subproject
- Overview of the Subproject on Human Systems Interface
- Overview of the Subproject on Separation Assurance/Sense and Avoid Interoperability
- Overview of the Integration Test and Evaluation Subproject

It is imperative that these meetings be held on this date to accommodate the scheduling priorities of the key participants. Attendees will be requested to sign a register and comply with NASA security requirements, including the presentation of a valid picture ID to Security before access to NASA Headquarters (West Lobby—Visitor Control Center). Foreign nationals attending this meeting will be required to provide a copy of their passport and visa in addition to providing the following information no less than 10 working days prior to the meeting: full name; gender; date/place of birth; citizenship; visa information (type, number, expiration date); passport information (number, country, expiration date); employer/affiliation information (name of institution, address, country, telephone); title/position of attendee; and home address to Ms. Brenda L. Mulac, by fax at (202) 358–3602. U.S. citizens and green card holder are requested to submit their name and affiliation 3 working days prior to the meeting to Brenda Mulac.

Patricia D. Rausch,
Advisory Committee Management Officer,
National Aeronautics and Space Administration.

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities; Proposed Collection; Comment Request

AGENCY: National Science Foundation.

ACTION: Notice and request for comments.

SUMMARY: Under the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3501 et seq.), and as part of its continuing effort to reduce paperwork and respondent burden, the National Science Foundation (NSF) is inviting the general public or other Federal agencies to comment on this proposed continuing information collection. The NSF will publish periodic summaries of the proposed projects.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the NSF, including whether the information will have practical utility; (b) the accuracy of the NSF’s estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected, including through the use of automated collection techniques or other forms of information collection.
