*Abstract:* The Office of the Assistant Secretary for Planning and Evaluation (ASPE) is requesting an extension from the Office of Management and Budget (OMB) to conduct a survey of public sector organizations for the *Let's Move!* Cities, Towns and Counties Initiative. *Let's Move!* is a comprehensive initiative, launched by the First Lady, dedicated to solving the challenge of childhood obesity within a generation. Combining comprehensive strategies with common sense, *Let's Move!* is about:

- Putting children on the path to a healthy future during their earliest months and years;
- Giving parents helpful information and fostering environments that support healthy choices;
- Providing healthier foods in our schools;
- Ensuring that every family has access to healthy, affordable food; and
- Helping kids become more physically active.

*Let's Move!* Cities, Towns, and Counties emphasizes the unique ability of communities to solve the challenge locally, and the critical leadership mayors and elected officials can provide to bring communities together and spur action. The initiative is designed to encourage mayors and elected officials to adopt a long-term, sustainable and holistic approach to fighting childhood obesity.

This activity is requesting comment on the burden for a baseline survey for local or county officials who have chosen to participate in *Let's Move!* Cities, Towns, and Counties. The survey requests information about the activities the locality is choosing to undertake. *Proposed Project:* Ryan White HIV/AIDS Program Modeling Project—OMB No. 0990-New—Office of the Assistant Secretary for Planning and Evaluation.

*Abstract:* The Office of the Assistant Secretary for Planning and Evaluation (ASPE) is requesting the Office of Management and Budget (OMB) approval of a new collection that will examine the service needs under the Ryan White HIV/AIDS Program as the provisions of the Affordable Care Act

are implemented, and identify strategies for ensuring that available federal resources are directed to areas of greatest need. To supplement the analysis of existing quantitative data sources, including Ryan White HIV/AIDS Program data, Medicaid enrollment and claims data, and HIV surveillance data, this two-year information collection request is for primary data collection in the form of telephone interviews with administrators of Ryan White grants and providers of HIV care services. In light of Congressional interest expressed in Senate Report 111-243 concerning how the Ryan White Program will transition into a larger system of care with the implementation of the Affordable Care Act, these interviews will help ASPE to understand the potential impact of the Affordable Care Act from the perspectives of Ryan White grantees and service providers. The interview protocols will cover topics including HIV service needs and use; coordination of client insurance enrollment, benefits, and services; factors that influence variation in HIV care costs and selection of AIDS Drug Assistance Program cost containment procedures; and methods of ensuring quality care.
