AGENCY: International Trade Administration, U.S. Department of Commerce.

ACTION: Notice of an Open Meeting.

SUMMARY: The Renewable Energy and Energy Efficiency Advisory Committee (RE&EEAC) will hold a meeting to deliver a letter and 11 recommendations to the Under Secretary of International Trade at the U.S. Department of Commerce and other U.S. Government officials. The letter voices the Committee's support for the International Trade Administration FY2013 budget and suggests items to consider during the proposed reorganization of the U.S. government trade agencies. The recommendations concern the development and administration of programs and policies to enhance the competitiveness of the U.S. renewable energy and energy efficiency industries, including specific challenges associated with exporting. The recommendations focus on four main areas: addressing local content requirements, increasing access to sources of new capital for investment in the U.S. renewable energy and energy efficiency sectors, increasing the speed of the Overseas Private Investment Corporation's decision-making process and boosting public awareness of the resulting benefits to U.S. employment, and improving finance options pertaining to shipping by U.S. renewable energy exporters. The Committee will also provide feedback on their committee activities, which the Department may use in the committee rechartering process for 2012-2014.
