[Docket No. FAA-2012-0384; Airspace
Docket No. 12-ANM-9]

Proposed Amendment of Class D and E Airspace; Lewiston, ID

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking
(NPRM).

SUMMARY: This action proposes to modify Class E airspace at Lewiston-Nez Perce County Airport, Lewiston, ID. Controlled airspace is necessary to accommodate aircraft using Area Navigation (RNAV) Global Positioning System (GPS) standard instrument approach procedures at Lewiston-Nez Perce County Airport, Lewiston, ID. The geographic coordinates of the airport and navigation aids also would be adjusted in the respective Class D and Class E airspace areas. The FAA is proposing this action to enhance the safety and management of aircraft operations at Lewiston-Nez Perce County Airport, Lewiston, ID.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by modifying Class E airspace extending upward from 700 feet above the surface at Lewiston-Nez Perce County Airport, Lewiston, ID, to accommodate aircraft using RNAV (GPS) standard instrument approach procedures at the airport. Also, the geographic coordinates of the airport, the Nez Perce VOR/DME, and the Lewiston-Nez Perce ILS Localizer navigation aids, would be updated to coincide with the FAA's aeronautical database for the respective Class D airspace and Class E airspace areas. This action would enhance the safety and management of aircraft operations at Lewiston-Nez Perce County Airport, Lewiston, ID.

Class D and E airspace designations are published in paragraphs 5000, 6002, 6004, and 6005, respectively, of FAA Order 7400.9V, dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR Part 71.1. The Class D and E airspace designations listed in this document will be published subsequently in this Order.

The FAA has determined this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority for the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's

authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify controlled airspace at Lewiston-Nez Perce County Airport, Lewiston, ID.

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

Endangered and Threatened Wildlife and Plants; 90-Day Finding on a Petition To Delist or Reclassify From Endangered to Threatened Six California Species

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of 90-day petition findings and initiation of status reviews.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce a 90-day finding on a petition to delist the Inyo California towhee (*Pipilo crissalis eremophilus*), and to reclassify from endangered to threatened the arroyo toad (*Anaxyrus californicus*), Indian Knob mountainbalm (*Eriodictyon altissimum*), Lane Mountain milk-vetch (*Astragalus jaegerianus*), Modoc sucker (*Catostomus microps*), and Santa Cruz cypress (*Cupressus abramsiana*) under the Endangered Species Act of 1973, as amended (Act). Based on our review, we find that the petition presents substantial scientific or commercial information indicating that the petitioned actions may be warranted. Therefore, with the publication of this notice, we are initiating status reviews of these taxa to determine if the respective actions of delisting and reclassifying are warranted. Section 4(c)(2)(A) of the Act also requires a status review of listed species at least once every 5 years. The status reviews we are initiating will also fulfill the requirements of section 4(c)(2) of the Act. To ensure that these status reviews are comprehensive, we are requesting scientific and commercial data and other information regarding these species and subspecies. Based on these status reviews, we will issue 12-month
