

States and issuers submit their data, they will receive an email notifying them of any errors, and that their submission was received.

CCIIO is mandating the issuers verify and update their information on a quarterly basis and is requesting that States verify State-submitted information on an annual basis. In the event that an issuer enhances its existing plans, proposes new plans, or deactivates plans, the organization would be required to update the information in the web portal. Changes occurring during the three month quarterly periods will be allowed utilizing effective dates for both the plans and rates associated with the plans.

Information that is to be collected from State high risk pools will be collected from The National Association of State Comprehensive Health Insurance Plans (NASCHIP) at this time. Updates to this information may be submitted voluntarily. The estimated hour burden on issuers for the Plan Finder data collection in the first year is estimated as 90,400 total burden hours, or 113 hours per organization. This estimate is based on an assumed average of 450 individual plan issuers and 700 small group plan issuers per each of the four quarterly collections. It includes 30 hours per organization for training and communication. Additionally, for each of the issuers it includes 11 hours of preparation time, one hour of login and upload time, two hours of troubleshooting and data review and one half hour for attestation per organization per quarterly refresh. The estimated hour burden on the States is informed by the fact that they have already submitted the data once and only need to update. The overall hours estimate is 575, or 11.5 per Department of Insurance. This is premised on 2 hours of training and communication, 8 hours for data collection, and one half hour of submission.

Submission for OMB Review; Comment Request

Title: Study of Coordination of Tribal TANF and Child Welfare Services.

OMB No.: New Collection.

Description: Study of Coordination of Tribal TANF and Child Welfare Services is sponsored by the Office of Planning, Research and Evaluation (OPRE), Administration for Children and Families of the U.S. Department of Health and Human Services. The study examines the approaches and strategies utilized by tribes and tribal organizations that were awarded the grants for Coordination of Tribal TANF and Child Welfare Services to Tribal Families at Risk of Child Abuse or Neglect.

The descriptive study of these programs that serve tribal communities will document the way in which the tribal grantees are creating and adapting culturally relevant and appropriate approaches, systems, and programs to increase coordination and enhance service delivery to address child abuse and neglect. The study will also document challenges faced and lessons learned to inform the field of practice as well as policymakers and funders at various levels.

The proposed information collection activities consist of semi-structured interviews, conducted at each of the 14 tribal communities, and a grantee feedback survey on the usefulness of periodically held cross-grantee learning events.

Respondents: Program director(s), tribal TANF and child welfare staff and supervisors, program partners, and tribal leaders or elders. The information collection does not include direct interaction with individuals or families that receive the services.
