

2. Statutory Basis

Nasdaq believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,²¹ in general, and with Section 6(b)(5) of the Act,²² in particular. Section 6(b)(5) requires, among other things, that a national securities exchange's rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest. The proposed rule change would modify Nasdaq's rules to allow a listed company to utilize the Exception for a very narrow category of additional directors: Those who have a family member who is a non-executive employee of the listed company. Nasdaq believes that the proposed change will reduce confusion about the application of the Exception, given that the same family relationship does not otherwise preclude the director from being considered independent, and will thereby promote just and equitable principles of trade and remove an impediment to the mechanism of a free and open market. The proposed rule change is designed to protect investors and the public interest because a company's board will continue to be required to conclude that the use of the Exception is in the best interests of the company and its stockholders and the use of the Exception will continue to be required to be disclosed as set forth in Listing Rules 5605(c)(2)(B), 5605(d)(3) and 5605(e)(3).

B. Self-Regulatory Organization's Statement on Burden on Competition

Nasdaq does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to

90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) By order approve or disapprove the proposed rule change, or
- (B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549 on official business days between 10:00 a.m. and 3:00 p.m. Copies of the filing will also be available for inspection and copying at Nasdaq's principal office. II. Background

FMCSA published The National Registry of Certified Medical Examiners (National Registry) in the **Federal Register** on April 20, 2012. This rule requires all healthcare practitioners who conduct medical examinations for interstate commercial motor vehicle drivers to undergo training, pass a certification exam, and be listed on the National Registry on the Agency's Web site. The rule becomes effective on May 21, 2012. At that time, testing providers may apply on-line through the National Registry System to be a test delivery organization for the certification exam.

Test delivery organizations play a key role in the rule's implementation. In writing this rule, the Agency decided to use the public/private partnership model. The Agency develops and provides the test to test delivery organizations who then deliver the test, charge whatever fee they determine reasonable, and transmit test results to

the Agency. The Agency does not pay the test delivery organization. However, to participate, test delivery organizations must apply and be approved before the Agency will provide access to the system and give the test delivery organization the test forms.

III. Meeting Participation

Attendance is open to all interested parties.

Issued on: May 30, 2012.
