

evaluation period has been much lower than planned. The proposed rates include a significant reduction in the sales forecast for 500-kV transmission service over the next 5-year evaluation period, which is a major factor of the rate increase.

Another factor of the rate increase is when the existing rates were developed, purchase power was handled at the power system level and the Intertie had no purchase power costs to recover. Since then, Western's Balancing Authority (BA) in the Desert Southwest Customer Service Region has initiated power purchases for reliability purposes and the associated costs are distributed to the applicable transmission systems within the BA, including the Intertie transmission system. These annual purchase power costs are subject to recovery and inclusion in the proposed rates.

Legal Authority

Since the proposed rates constitute a major rate adjustment as defined by 10 CFR part 903, Western will hold both a public information forum and public comment forum. After review of public comments, Western will take further action on the proposed rates consistent with 10 CFR part 903.

Western is establishing transmission service rates for the Intertie under the DOE Organization Act (42 U.S.C. 7152); the Reclamation Act of 1902 (ch. 1093, 32 Stat. 388), as amended and supplemented by subsequent laws, particularly section 9(c) of the Reclamation Project Act of 1939 (43 U.S.C. 485h(c)); and other acts that specifically apply to the project involved.

By Delegation Order No. 00-037.00, effective December 6, 2001, the Secretary of Energy delegated: (1) The authority to develop power and transmission rates to Western's Administrator; (2) the authority to confirm, approve, and place such rates into effect on an interim basis to the Deputy Secretary of Energy; and (3) the authority to confirm, approve, and place into effect on a final basis, to remand, or to disapprove such rates to FERC. Existing DOE procedures for public participation in power and transmission rate adjustments (10 CFR part 903) were published on September 18, 1985 (50 FR 87835).

Availability of Information

All brochures, studies, comments, letters, memorandums, or other documents that Western initiates or uses to develop the proposed rates are available for inspection and copying at the Desert Southwest Customer Service

Regional Office, Western Area Power Administration, 615 South 43rd Avenue Phoenix, Arizona 85009-5313. Many of these documents and supporting information are also available on Western's Web site at <http://www.wapa.gov/dsw/pwrnkt/Intertie/RateAdjust.htm>.

Ratemaking Procedure Requirements

Environmental Compliance

Western will evaluate this action for compliance with the National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321-4347), the Council on Environmental Quality Regulations (40 CFR parts 1500-1508), and DOE NEPA Regulations (10 CFR part 1021).

Determination Under Executive Order 12866

Western has an exemption from centralized regulatory review under Executive Order 12866. Accordingly, no clearance of this notice by the Office of Management and Budget is required.
