**Public Participation and Request for Comments**

This Notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection's purpose, the Collection's likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collections being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology. These comments will help OIRA determine whether to approve the ICR referred to in this Notice.

We encourage you to respond to this request by submitting comments and related materials. Comments to Coast Guard or OIRA must contain the OMB Control Number of the ICR. They must also contain the docket number of this

request, [USCG 2012-0044], and must be received by July 11, 2012. We will post all comments received, without change, to <http://www.regulations.gov>. **Previous Request for Comments**

This request provides a 30-day comment period required by OIRA. The Coast Guard published the 60-day notice (77 FR 6571, February 8, 2012) required by 44 U.S.C. 3506(c)(2). That Notice elicited one comment response. The commenter noted the importance of this information elicitation, and recommended executing similar survey efforts on a recurring basis. More specifically, the commenter recommended that:

1. *The survey instructions be clarified and remind respondents about the potential to receive a raffle prize.* The Coast Guard revised the introductory paragraph in response to this recommendation.
2. *The survey include a question asking for the proportion or percentage of time spent in each fishery.* The Coast Guard did not act on this recommendation because this information could not be used in the scope of the survey design.
3. *The survey include an additional question asking the most recent date of active fishing.* The Coast Guard has added a question the survey to determine the activity level of the respondent in their primary fishery in response to this recommendation.
4. *The survey include questions asking respondents directly about their activity in the fishery instead of asking about trends the fisherman has observed in other fishermen.* The Coast Guard did not act on this recommendation because this survey approach was chosen deliberately to reduce social-desirability bias in responses.
5. *The survey include indications of whether different forms of Coast Guard enforcement has been encountered by*

the respondent. Since the Coast Guard has not adjusted the survey to the comment outlined in #4, this recommendation does not apply as respondents are not specifically asked about their own experiences with Coast Guard enforcement.

6. *The survey clarify what animals are managed under the Marine Mammal Protection Act.* The Coast Guard chose to not change this question because (1) an exhaustive list of all marine mammals fishermen are likely to encounter would be prohibitively long, and not listing marine mammals could prevent respondents from answering the question correctly and (2) the majority of fishermen already understand what species are covered under the Marine Mammal Protection Act..

7. *The Coast Guard modify the responses to the question "If a National Marine Sanctuary exists in the area where you fish, how does its existence impact the abundance of the fishery's target species?"* The Coast Guard has modified this question in response to this recommendation.

8. *The Coast Guard provide a single direct link to the survey that does not require respondents to go through the Federal Register.* This was the original intent of the Coast Guard, the PRA package has been modified to correctly reflect this.

9. *The Coast Guard include an option for paper surveys to be delivered by mail to those who request one.* Providing a paper survey option is cost prohibitive. The Coast Guard shares the respondent's desire to maximize the population for which this survey is accessible, and therefore will consider alternate options such as providing internet access during public events to complete the survey.

10. *The survey period be extended to better accommodate fishermen whose peak fishing coincides with the survey time.* The Coast Guard agrees with this comment and will keep the survey open for an adequate period of time to facilitate survey responses from all fisheries participants.

#### Information Collection Request

*Title:* Coast Guard Living Marine Resources (LMR) Enforcement Survey.  
*OMB Control Number:* 1625-NEW.

*Type of Request:* New Collection.

*Respondents:* U.S. marine fishing permit holders and registered saltwater recreational fishermen.

*Abstract:* The purpose of this survey is to assess the effectiveness of various enforcement techniques available to the U.S. Coast Guard to promote compliance with federal LMR regulations. The results of this survey

will ultimately allow the Coast Guard to link level and type of Coast Guard enforcement efforts with compliance decisions made by the regulated community.

*Forms:* None.

*Burden Estimate:* The estimated burden is 3,600 hours.

Dated: June 1, 2012.
