etc.), and (3) suggest other metrics not described in the Final Biop that could be used to evaluate the efficacy of the action in ensuring the groundfish fisheries are not likely to adversely affect the survival and recovery of WDPS of the Steller sea lion.

CIE Panel Review

The CIE panel review will focus on Chapter 2 from the TORs. Persons or groups wishing to make a presentation to the CIE reviewers must submit a statement of interest with a brief (one page or less) abstract of the type of information to be presented. Presentations must address new scientific information germane to Steller sea lions and the groundfish fisheries that was not available before September 3, 2010. Persons or groups proposing to present information that does not fall within the TORs for the CIE review will not be invited to make presentations.

Due to the limited time available for the panel review, NMFS encourages individuals or groups that may have similar perspectives on the pertinent scientific information to coordinate their proposed presentations into subject specific panels to present the information effectively and minimize redundancy. For example, a panel could be comprised of several fishing industry representatives or several representatives of non-governmental organizations, with each participant addressing a different facet of the relevant information.

NMFS will review the statements of interest, abstracts, and proposed panels and, in consultation with the CIE reviewers, will schedule the presentations so as to focus on the most relevant scientific information of interest to the reviewers. The amount of time available per presenter or panel will depend on the number of persons and groups wishing to make presentations. NMFS will contact the proposed presenters in advance of the meeting to specify the amount of time available and the approximate schedule. During the meeting presenters may provide additional written information to the CIE reviewers for consideration, but the CIE reviewers are not obligated under the contract to review documents beyond those identified in the SOW.

More information on the CIE review, including the full SOW and TORs and all written materials for review identified in the SOW, is available on the NMFS Alaska Region Web site (see ADDRESSES).

Arrangements for Foreign Nationals

Individuals wishing to attend the meeting who are not citizens of the United States must make prior arrangements to be permitted entrance to the Alaska Fisheries Science Center (see ADDRESSES). Requests for such arrangements should be directed to Jennifer Ferdinand by email at jennifer.ferdinand@noaa.gov by July 23, 2012.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Jennifer Ferdinand, (206) 526–4076, at least 5 working days prior to the meeting date.

Dated: June 6, 2012.

Helen Golde,
Acting Director, Office of Protected Resources, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE
National Oceanic and Atmospheric Administration

RIN 0648–XB139
Marine Mammals; File No. 17178

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit.

SUMMARY: Notice is hereby given that a permit has been issued to Virginia Institute of Marine Science [Responsible Party: Elizabeth Canuel, Ph.D.], P.O. Box 1346, Route 1208 Great Gorge Road, Gloucester Point, VA 23062 to import marine mammal parts for scientific research.

Dated: June 6, 2012.

Laura Morse or Amy Sloan, (301)427–8401.

FOR FURTHER INFORMATION CONTACT: Laura Morse or Amy Sloan, (301)427–8401.

SUPPLEMENTARY INFORMATION: On April 02, 2012 notice was published in the Federal Register (77 FR 19646) that a request for a permit to import marine mammal parts for scientific research had been submitted by the above-named applicant. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 et seq.), and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

The permit authorizes the import of fur, blood, and fat biopsies from up to 300 crabeater seals (Lobodon carcinophaga), 200 Weddell seals (Leptonychotes weddellii), 50 Ross seals (Ommatophoca rossii), and 25 leopard seals (Hydrurga leptonyx). No takes of live animals are authorized. The permit will expire June 01, 2017.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), a final determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Dated: June 5, 2012.

P. Michael Payne,
Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.
