who performs duty for which he or she is entitled to DoD/USCG compensation may elect to receive for that duty either the disability payments or, if he or she waives such payments, the DoD/USCG compensation for the duty performed.

D. RECORDS TO BE MATCHED:
The systems of records maintained by the respective agencies under the Privacy Act of 1974, as amended, 5 U.S.C. 552a, from which records will be disclosed for the purpose of this computer match are as follows:
The DMDC will use the system of records identified as DMDC 01, entitled “Defense Manpower Data Center Data Base,” last published in the Federal Register at November 23, 2011, 76 FR 72391. A copy of the published system notice is at Attachment 2.

The VA will use the system of records identified as “Compensation, Pension, Education and Vocational Rehabilitation and Employment Records—VA” (58VA21/22/28), republished in its entirety at 74 FR 29275 (June 19, 2009), last amended at 75 FR 22187, April 27, 2010. Attachment 3 is a copy of the system notice with the appropriate routine use, i.e., RU 39.

E. DESCRIPTION OF COMPUTER MATCHING PROGRAM:
The VA will submit to DMDC an electronic data of all VA pension and disability compensation beneficiaries as of the end of September. Upon receipt of the data, DMDC will match by SSN with reserve pay data as submitted to DMDC by the military services and the USCG. Upon a SSN match, or a “hit,” of both data sets, DMDC will provide VA the individual’s name and other identifying data, to include the number of training days, by Fiscal Year, for each matched record. Training days are the total of inactive duty drills paid plus active duty days paid.

The hits will be furnished to VA, which will be responsible for verifying and determining that the data in the DMDC electronic files is consistent with the VA files and for resolving any discrepancies or inconsistencies on an individual basis. VA will initiate actions to obtain an election by the individual of which pay he or she wishes to receive and will be responsible for making final determinations as to positive identification, eligibility for, or amounts of pension or disability compensation benefits, adjustments thereto, or any recovery of overpayments, or such other action as authorized by law.

The electronic data provided by the VA will contain information on approximately 4.2 million pension and disability compensation recipients.

The DMDC reserve pay data contains information on approximately 890,000 DoD and 10,000 USCG reservists who received pay and allowances for performing authorized duty.

VA will furnish DMDC the name and SSN of all VA pension and disability compensation recipients and DMDC will supply VA the name, SSN, date of birth, and the number of training days by fiscal year of each reservist who is identified as a result of the match.

F. INCLUSIVE DATES OF THE MATCHING PROGRAM:
This computer matching program is subject to public comment and review by Congress and the Office of Management and Budget. If the mandatory 30 day period for comment has expired and no comments are received and if no objections are raised by either Congress or the Office of Management and Budget within 40 days of being notified of the proposed match, the computer matching program becomes effective and the respective agencies may begin the exchange at a mutually agreeable time and thereafter on a quarterly basis. By agreement between VA and DMDC, the matching program will be in effect for 18 months with an option to renew for 12 additional months unless one of the parties to the agreement advises the other by written request to terminate or modify the agreement.
