The labeling requirements of section 403(y) of the FD&C Act became effective on December 22, 2007, although FDA exercised enforcement discretion until September 30, 2010, to enable all firms to meet the labeling requirements for dietary supplements. FDA estimates that all labels required to include the domestic address or telephone number pursuant to section 403(y) of the FD&C Act have been revised by the effective date. Thus, in succeeding years, the Agency estimates that the burden hours associated with the labeling requirements of section 403(y) of the FD&C Act and the Agency’s recommendations on the use of an explanatory statement will apply only to new product labels. Based on the A.C. Nielsen Sales Scanner Data, FDA estimated that the number of dietary supplement SKUs for which sales of the products are greater than zero is 55,600. Assuming that the flow of new products is 10 percent per year, then approximately 5,560 new dietary supplement products will come on the market each year. FDA also estimates that there are about 1,460 dietary supplement manufacturers, repackers, relabelers, and holders of dietary supplements. Assuming the approximately 5,560 new products are split equally among the firms, then each firm would prepare labels for close to four new products per year (5,560 new products/1,460 firms = 3.8 labels per firm). Thus, the estimated total annual disclosures are 5,560 (1,460 firms × 3.8 labels per year = 5,560).

The Agency expects that firms prepare the required labeling for their products in a manner that takes into account at one time all information required to be disclosed on their product labels. Based upon its knowledge of food and dietary supplement labeling, FDA estimates that firms would require less than 0.5 hour per product to comply with the requirement to include the domestic address or telephone number pursuant to section 403(y) of the FD&C Act. The total hour burden of this task is shown in row 1 of Table 1.

FDA estimates that all firms will include an explanatory statement on the label, which lets consumers know the purpose of the domestic address or telephone number on the label of the dietary supplement product. Based upon its knowledge of food and dietary supplement labeling, FDA estimates that firms would require less than 0.5 hour per product to comply with the Agency’s recommendations on the use of an explanatory statement. The total hour burden of this task is shown in row 2 of Table 1.

The total reporting hour burden is 5,560 hours, which equals the burden for the required domestic address or telephone (2,780) plus the burden for the explanatory statement before the domestic address or telephone number (2,780).

Dated: June 8, 2012.
Leslie Kux, Assistant Commissioner for Policy.

adopted this process as a means to develop and disseminate product-specific BE recommendations and provide a meaningful opportunity for the public to consider and comment on those recommendations. Under that process, draft recommendations are posted on FDA’s Web site and announced periodically in the Federal Register. The public is encouraged to submit comments on those recommendations within 60 days of their announcement in the Federal Register. FDA considers any comments received and either publishes final recommendations or publishes revised draft recommendations for comment. Recommendations were last announced in the Federal Register of March 28, 2012 (77 FR 18827). This notice announces draft product-specific recommendations, either new or revised, that are being posted on FDA’s Web site concurrently with publication of this notice.

II. Drug Products for Which New Draft Product-Specific BE Recommendations Are Available

FDA is announcing new draft product-specific BE recommendations for drug products containing the following active ingredients:

A. Aliskiren hemifumarate; amlodipine besylate
   Alvimopan
   Azilsartan medoxomil

B. Bacitracin
   Boceprevir

C. Cefpodoxime proxetil (multiple reference listed drugs (RLDs))
   Cefprozil (multiple RLDs)
   Cetirizine HCl
   Ciprofloxacin HCl; hydrocortisone
   Clonidine citrate

D. Dabigatran etexilate mesylate
   Dexamethasone; tobramycin
   Dinoprostone
   Diphenhydramine; ibuprofen

E. Erythromycin
F. Famotidine; ibuprofen
G. Gabapentin enacarbil

H. Itraconazole

I. Ketoconazole

J. Lacosamide

K. Malathion

L. Morphine sulfate; naltrexone HCl

M. Podofilox

N. Rolipram

O. Rufinamide

P. Tapentadol HCl

Q. Tetrahydrozoline

R. Zaleplon

T. Zolpidem tartrate

III. Drug Products for Which Revised Draft Product-Specific BE Recommendations Are Available

FDA is announcing revised draft product-specific BE recommendations for drug products containing the following active ingredients:

D. Dexamethasone; tobramycin (multiple RLDs)

E. Everolimus

L. Loteprednol etabonate
   Loteprednol etabonate; tobramycin

S. Sorafenib tosylate

For a complete history of previously published Federal Register notices related to product-specific BE recommendations, please go to http://www.regulations.gov and enter docket number FDA–2007–D–0369. These draft and revised draft guidelines are being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). These guidelines represent the Agency’s current thinking on product-specific design of BE studies to support ANDAs. They do not create or confer any rights for or on any person and do not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statutes and regulations.

IV. Comments

Interested persons may submit to the Division of Dockets Management (see ADDRESSES) either electronic or written comments on any of the specific BE recommendations posted on FDA’s Web site. Identify comments with the docket number found in brackets in the heading of this document. The guidelines, notices, and received comments may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday.

V. Electronic Access

Persons with access to the Internet may obtain the document at either http://www.fda.gov/Drugs/GuidanceComplianceRegulatoryInformation/Guidances/default.htm or http://www.regulations.gov.
