SUPPLEMENTARY INFORMATION:

A. Purpose

Offers submitted in response to Government solicitations must be evaluated and awards made on the basis of the lowest laid down cost to the

Government at the overseas port of discharge, via methods and ports compatible with required delivery dates and conditions affecting transportation known at the time of evaluation. FAR provision 52.247-51, "Evaluation of Export Offers," is required for insertion in Government solicitations when supplies are to be exported through Contiguous United States (CONUS) ports and offers are solicited on a free onboard (f.o.b.) origin or f.o.b. destination basis. The provision has three alternates, to be used (1) when the CONUS ports of export are DoD water terminals, (2) when offers are solicited on an f.o.b. origin only basis, and (3) when offers are solicited on an f.o.b. destination only basis. The provision collects information regarding the vendor's preference for delivery ports. The information is used to evaluate offers [on the basis of shipment through the port resulting in the lowest cost to the Government].

Intent To Prepare a Draft Supplemental Environmental Impact Statement for the Greenup Locks and Dam, General Reevaluation Report, Greenup County, KY

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA), the U.S. Army Corps of Engineers (Corps),

Huntington District will prepare a General Reevaluation Report (GRR) and Draft Supplemental Environmental Impact Statement (SEIS) to disclose potential impacts to the natural, physical, and human environment resulting from the implementation of alternatives to reduce foreseeable traffic delays and associated economic losses that occur during periodic maintenance at the Greenup Locks and Dam located on the Ohio River. A Feasibility Report and Environmental Impact Statement (EIS) was previously completed for the project in April 2000. This study recommended a 600-foot (ft) extension of the existing auxiliary lock chamber to a length of 1200 ft. The project was authorized by Congress in 2000; however, no funds have been appropriated for project construction. Due to the amount of time that has elapsed since completion of the Feasibility Report, and the associated economic, environmental and reliability changes that may have occurred during this time, the Federal interest must be reevaluated. The project alternatives being considered include the plans considered in the previous study as well as variations to these plans which may include both structural and nonstructural operational measures, and the No Action alternative.

DATES: A public scoping meeting will be held on June 28, 2012 from 5:30-7:30 p.m.

ADDRESSES: The public scoping meeting will be held in the Kentucky room of the Ashland Plaza Hotel, located at 1441 Winchester Avenue, Ashland, KY 41101.
