

chamber is closed, all traffic must lock through the smaller, land-side 600 ft chamber resulting in long delays for all lockages. Reducing delays could save millions of dollars in transportation costs and reduce the impacts of waiting-tows on aquatic resources adjacent to the locks and dam. The Feasibility Report and EIS completed in 2000 considered various alternatives to either minimize maintenance closure time and/or to increase traffic throughput when one or the other chamber is closed to traffic.

b. In 2000, the Chief of Engineers recommended that the Greenup Locks and Dam be modified for the purposes of navigation efficiency and reliability. The Greenup plan of improvement included a 600 ft extension of the existing auxiliary lock chamber to a length of 1200 ft, extension of the downstream guidewall, filling and emptying system improvements, installation of a miter gate quick changeout system for faster repairs to the lock miter gates, an off-site dry dock to minimize transportation impacts during construction, and environmental mitigation measures.

c. The District is currently utilizing Operation and Maintenance funds to replace the miter gates in the main chamber. Replacement of the miter gates is expected to increase the reliability of main chamber operation, resulting in fewer traffic delays at the lock. In addition, barge traffic at the lock has decreased in recent years and future traffic forecasts are expected to reflect a continuation of that trend.

d. The without project conditions developed in the 2000 Feasibility Report and EIS have changed for the Greenup Locks due to the length of time since the report was completed, changes in the reliability of the main chamber, and a potential for decreased traffic at the project. Therefore, the Corps will complete a study to reevaluate the feasibility of project alternatives including their economic and environmental effects to identify federal interest.

3. *Public Participation*: a. The Corps will conduct a public scoping meeting (see **DATES** and **ADDRESSES**) to gain input from interested agencies, organizations, and the general public concerning the content of the SEIS, issues and impacts to be addressed in the document, and alternatives that should be analyzed.

b. The Corps invites full public participation to promote open communication and better decision-making. All persons and organizations that have an interest in the Greenup Lock improvements and its potential effects on the environment are urged to

participate in this NEPA evaluation process. Assistance will be provided upon request to anyone having difficulty with learning how to participate.

c. Public comments are welcomed anytime throughout the NEPA process. Formal opportunities for public participation include: (1) Public meeting to be held in the community of Ashland; (2) Anytime during the NEPA process via mail, telephone or email; (3) During Review and Comment on the Draft SEIS; and (4) Review of the Final SEIS. Schedules and locations will be announced in local news media. Interested parties should submit contact information to be included on the mailing list for public distribution of meeting announcements and documents. Please address all written comments and suggestions concerning this proposed project to Natalie McKinley, CELRH-PM-PD-F, U.S. Army Corps of Engineers, Huntington District, 502 Eighth Street, Huntington, WV 25701-2070. Telephone: 304-399-5842. Email:

Natalie.J.Mckinley@usace.army.mil.

4. *Schedule*: The GRR and Draft SEIS are scheduled to be released for public review and comment in June 2014. The Final GRR and SEIS are scheduled to be completed in September 2014.

Brenda S. Bowen,

Army Federal Register Liaison Officer.

BILLING CODE 3720-58-P

DEPARTMENT OF DEFENSE

Department of the Army; Army Corps of Engineers

Notice of Solicitation of Applications for Stakeholder Representative Members of the Missouri River Recovery Implementation Committee

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice.

SUMMARY: The Commander of the Northwestern Division of the U.S. Army Corps of Engineers (Corps) is soliciting applications to fill vacant stakeholder representative member positions on the Missouri River Recovery Implementation Committee (MRRIC). Members are sought to fill vacancies on a committee to represent various categories of interests within the Missouri River basin. The MRRIC was formed to advise the Corps on a study of the Missouri River and its tributaries and to provide guidance to the Corps with respect to the Missouri River

recovery and mitigation activities currently underway. The Corps established the MRRIC as required by the U.S. Congress through the Water Resources Development Act of 2007 (WRDA), Section 5018.

DATES: The agency must receive completed applications and endorsement letters no later than July 16, 2012.

ADDRESSES: Mail completed applications and endorsement letters to U.S. Army Corps of Engineers, Omaha District (Attn: MRRIC), 1616 Capitol Avenue, Omaha, NE 68102-4901 or email completed applications to *info@mrric.org*. Please put "MRRIC" in the subject line.

FOR FURTHER INFORMATION CONTACT: Mary S. Roth, 402-995-2919.

SUPPLEMENTARY INFORMATION: The operation of the MRRIC is in the public interest and provides support to the Corps in performing its duties and responsibilities under the Endangered Species Act, 16 U.S.C. 1531 *et seq.*; Sec. 601(a) of the Water Resources Development Act (WRDA) of 1986, Public Law 99-662; Sec. 334(a) of WRDA 1999, Public Law 106-53, and Sec. 5018 of WRDA 2007, Public Law 110-114. The Federal Advisory Committee Act, 5 U.S.C. App. 2, does not apply to the MRRIC.

A Charter for the MRRIC has been developed and should be reviewed prior to applying for a stakeholder representative membership position on the Committee. The Charter, operating procedures, and stakeholder application forms are available electronically at *www.MRRIC.org*.

Purpose and Scope of the Committee. The duties of the MRRIC cover two areas:

1. The Committee provides guidance to the Corps, and affected Federal agencies, State agencies, or Native American Indian Tribes on a study of the Missouri River and its tributaries to determine the actions required to mitigate losses of aquatic and terrestrial habitat, to recover federally listed species protected under the Endangered Species Act, and to restore the river's ecosystem to prevent further declines among other native species. This study is identified in Section 5018 (a) of the WRDA. It will result in a single, comprehensive plan to guide the implementation of mitigation, recovery, and restoration activities in the Missouri River Basin. This plan is referred to as the Missouri River Ecosystem Restoration Plan (MRERP). For more information about the MRERP go to *www.MRERP.org*.

2. The MRRIC also provides guidance to the Corps with respect to the Missouri River recovery and mitigation plan currently in existence, including recommendations relating to changes to the implementation strategy from the use of adaptive management; coordination of the development of consistent policies, strategies, plans, programs, projects, activities, and priorities for the Missouri River recovery and mitigation plan. Information about the Missouri River Recovery Program is available at www.MoRiverRecovery.org.

3. Other duties of MRRIC include exchange of information regarding programs, projects, and activities of the agencies and entities represented on the Committee to promote the goals of the Missouri River recovery and mitigation plan; establishment of such working groups as the Committee determines to be necessary to assist in carrying out the duties of the Committee, including duties relating to public policy and scientific issues; facilitating the resolution of interagency and intergovernmental conflicts between entities represented on the Committee associated with the Missouri River recovery and mitigation plan; coordination of scientific and other research associated with the Missouri River recovery and mitigation plan; and annual preparation of a work plan and associated budget requests.

Administrative Support. To the extent authorized by law and subject to the availability of appropriations, the Corps provides funding and administrative support for the Committee.

Committee Membership. Federal agencies with programs affecting the Missouri River may be members of the MRRIC through a separate process with the Corps. States and Federally recognized Native American Indian tribes, as described in the Charter, are eligible for Committee membership through an appointment process. Interested State and Tribal government representatives should contact the Corps for information about the appointment process.

This Notice is for individuals interested in serving as a stakeholder member on the Committee. In accordance with the Charter for the MRRIC, stakeholder membership is limited to 28 people, with each member having an alternate. Members and alternates must be able to demonstrate that they meet the definition of "stakeholder" found in the Charter of the MRRIC. Applications are currently being accepted for representation in the stakeholder interest categories listed below:

- a. Environmental/Conservation Organizations;
- b. Hydropower;
- c. Irrigation;
- d. Local Government;
- e. Navigation;
- f. Thermal Power;
- g. Water Quality;
- h. Water Supply;
- i. Waterway Industries; and
- j. At Large.

Terms of stakeholder representative members of the MRRIC are three years. There is no limit to the number of terms a member may serve. Incumbent Committee members seeking reappointment do not need to re-submit an application. However, they must submit a renewal letter and related materials as outlined in the "Streamlined Process for Existing Members" portion of the document *Process for Filling MRRIC Stakeholder Vacancies* (www.MRRIC.org).

Members and alternates of the Committee will not receive any compensation from the federal government for carrying out the duties of the MRRIC. Travel expenses incurred by members of the Committee will not be reimbursed by the federal government.

Application for Stakeholder Membership. Persons who believe that they are or will be affected by the Missouri River recovery and mitigation activities and are not employees of federal agencies, tribes, or state agencies, may apply for stakeholder membership on the MRRIC. Applications for stakeholder membership may be obtained electronically at www.MRRIC.org. Applications may be emailed or mailed to the location listed (see **ADDRESSES**). In order to be considered, each application must include:

1. The name of the applicant and the primary stakeholder interest category that person is qualified to represent;
2. A written statement describing the applicant's area of expertise and why the applicant believes he or she should be appointed to represent that area of expertise on the MRRIC;
3. A written statement describing how the applicant's participation as a Stakeholder Representative will fulfill the roles and responsibilities of MRRIC;
4. A written description of the applicant's past experience(s) working collaboratively with a group of individuals representing varied interests towards achieving a mutual goal, and the outcome of the effort(s);
5. A written description of the communication network that the applicant plans to use to inform his or her constituents and to gather their feedback, and

6. A written endorsement letter from an organization, local government body, or formal constituency, which demonstrates that the applicant represents an interest group(s) in the Missouri River basin.

To be considered, the application must be complete and received by the close of business on July 16, 2012, at the location indicated (see **ADDRESSES**). Applications must include an endorsement letter to be considered complete. Full consideration will be given to all complete applications received by the specified due date.

Application Review Process. Committee stakeholder applications will be forwarded to the current members of the MRRIC. The MRRIC will provide membership recommendations to the Corps as described in Attachment A of the Process for Filling MRRIC Stakeholder Vacancies document (www.MRRIC.org). The Corps is responsible for appointing stakeholder members. The Corps will consider applications using the following criteria:

- Ability to commit the time required.
- Commitment to make a good faith (as defined in the Charter) effort to seek balanced solutions that address multiple interests and concerns.
- Agreement to support and adhere to the approved MRRIC Charter and Operating Procedures.
- Demonstration of a formal designation or endorsement by an organization, local government, or constituency as its preferred representative.
- Demonstrations of an established communication network to keep constituents informed and efficiently seek their input when needed.
- Agreement to participate in collaboration training as a condition of membership.

All applicants will be notified in writing as to the final decision about their application.

Certification. I hereby certify that the establishment of the MRRIC is necessary and in the public interest in connection with the performance of duties imposed on the Corps by the Endangered Species Act and other statutes.

Mary S. Roth,

Project Manager for the Missouri River Recovery Implementation Committee (MRRIC).
