

I. Background

The Consumer Price Index (CPI) is the timeliest instrument compiled by the U.S. Government that is designed to measure changes in the purchasing power of the urban consumer's dollar. The CPI is used most widely as a measure of inflation, and is used in the formulation of economic policy. It also is used as a deflator of other economic series, that is, to adjust other series for price changes and to translate these series into inflation-free dollars.

II. Current Action

Office of Management and Budget clearance is being sought for the CPI Housing Survey. This request addresses both the ongoing collection activities associated with compilation of the shelter component of the Consumer Price Index and the replacement of the base sample, selected using 1990 Census data. The on-going replacement of sample requires the creation of new segments of rental dwellings in all 87 Primary Sampling Units (PSUs). This action assures the ongoing activities of rent data collection and updates the sample such that the estimates are sufficient and less likely to be biased.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

Title: Independent Researcher Listing Application.

OMB number: 3095-0054.

Agency form numbers: NA Form 14115.

Type of review: Regular.

Affected public: Individuals or households.

Estimated number of respondents: 458.

Estimated time per response: 10 minutes.

Estimated total annual burden hours: 76.

Abstract: In the past, the National Archives has made use of various lists of independent researchers who perform freelance research for hire in the Washington, DC, area. We have sent these lists upon request to researchers who could not travel to the metropolitan area to conduct their own research. To better accommodate both the public and NARA staff, the Customer Services Division (RD-DC) of the National Archives maintains a listing of independent researchers for the public. All interested independent researchers provide their contact information via this form. Collecting contact and other key information from each independent researcher and providing such information to the public when deemed appropriate will only increase business. This form is not a burden in any way to any independent researcher who voluntarily submits a completed form. Inclusion on the list will not be viewed or advertised as an endorsement by the National Archives and Records Administration (NARA). The listing is compiled and disseminated as a service to the public.

Dated: May 30, 2012.

Executive for Information Services/CIO.

In the Matter of Maine Yankee Atomic Power Company; Maine Yankee Atomic Power Station; Confirmatory Order Modifying License (Effective Immediately)

AGENCY: Nuclear Regulatory
Commission.

ACTION: The U.S. Nuclear Regulatory
Commission (NRC or the Commission)

Yankee or the Licensee), to address
statutory requirements and the
Commission's regulation regarding

foreign ownership, control, or
domination (FOCD).

I

Maine Yankee Atomic Power
Company (Maine Yankee or the
Licensee), is the holder of Facility
Operating License No. DPR-36,
pursuant to 10 CFR Part 50, which
authorizes the receipt, possession, and
use of byproduct and special nuclear
material in accordance with the
Commission's regulations in 10 CFR
Parts 30, 40, and 70 at the Maine Yankee
Atomic Power Station and storage of
spent nuclear fuel under the general
license provisions of 10 CFR Part 72,
Subpart K at the Maine Yankee Atomic
Power Station. The facility is located at
the Licensee's site in Wiscasset, Maine.

II

On December 21, 2011, as
supplemented April 24, 2012, Maine
Yankee submitted a letter to the U.S.
Nuclear Regulatory Commission (NRC
or the Commission) (Agencywide
Documents Access and Management
System (ADAMS) Accession Nos.
ML11364A053 and ML12125A042),
stating that it had implemented a
Negation Action Plan by adopting a
Board of Directors Resolution that
prevents any potential for foreign
control over safety and security matters,
including access to security information
and to special nuclear material in
compliance with Section 103d of the
Atomic Energy Act of 1954, as amended
(AEA) and the Commission's regulation
under Title 10 of the *Code of Federal
Regulations* (10 CFR) 50.38. The Board
of Directors Resolution was passed on
December 14, 2011. The Board of
Directors Resolution was enclosed in a
Foreign Ownership, Control, and
Influence (FOCI) application filed with
the NRC on January 3, 2012, and also
provided in a letter to the NRC dated
February 23, 2012 (ADAMS Accession
No. ML12066A040).

The Negation Action Plan, as
modified in the April 24, 2012 letter,
contains provisions related to foreign
ownership, control, or domination that
include, but are not limited to, the
following items: (1) Access to classified
and safeguards information and to
special nuclear material shall be

controlled by Maine Yankee under the
direction of the Chief Nuclear Officer
(CNO) of Maine Yankee; (2) Decisions
related to safety and security of special
nuclear material, and related to access
to classified and safeguards information
and to special nuclear material, are
specifically delegated by the Maine
Yankee Board of Directors to the CNO
of Maine Yankee; (3) The CNO of Maine
Yankee shall be a U.S. citizen and shall
execute a certification acknowledging
his or her special duties to protect
classified and safeguards information, to
protect public health and safety and
common defense and security relative to
special nuclear material, and to report
any foreign ownership, control, or
domination issue to the NRC; (4)
Directors and officers of foreign-
controlled sponsor companies shall not
have access to safeguards or classified
information, and shall not have access
to special nuclear material in the
possession of Maine Yankee; (5)
Directors and officers of Maine Yankee
who are representatives of a foreign-
controlled owner shall be excluded from
access to classified information and to
special nuclear material; and (6)
Directors and officers of Maine Yankee
who are representatives of a foreign-
controlled owner shall execute
certifications acknowledging their
exclusion from access to classified
information and special nuclear
material, and acknowledging their
commitment to take no action to
circumvent the protective measures
established by Maine Yankee to negate
any foreign control or influence with
respect to radiological safety and
security of special nuclear material.

The NRC has reviewed and evaluated
the executed Negation Action Plan and
Board Resolution submitted by Maine
Yankee, and finds the plan and
implementing actions are acceptable to
negate the foreign ownership, control, or
domination issues and satisfy NRC
requirements as applicable when the
plan was submitted and at this time.

III

In order to meet the statutory
requirements of Section 103d of the
AEA and 10 CFR 50.38 as discussed
above, the Commission has determined
that the Facility Operating License for
Maine Yankee Atomic Power Station
must be modified to include provisions
with respect to the measures identified
in Section II of this Confirmatory Order.
The requirements needed to effectuate
the foregoing are set forth in Section IV
below. On May 31, 2012, Maine Yankee
consented to the license modifications
set forth in Section IV below. Maine
Yankee further agreed in its letter dated
