I. Funding Opportunity Description

Statutory Authority

The Indian Health Service (IHS) is accepting competitive cooperative agreement applications for the Office of Clinical and Preventive Services: National HIV Program for Enhanced HIV/AIDS Screening and Engagement in Care. This program is authorized under: the Snyder Act, 25 U.S.C. 13; the Transfer Act 42 U.S.C. 2001; and the Public Health Service Act, as amended, 42 U.S.C. 241. This program is described in the Catalog of Federal Domestic Assistance under 93.933.

Background

The IHS Office of Clinical and Preventive Services (OCPS), National Human Immunodeficiency Virus/ Acquired Immunodeficiency Syndrome (HIV/AIDS) Program serves as the primary source for national advocacy, policy development, budget development, and allocation for clinical, preventive, and public health HIV/AIDS programs for the IHS, Area Offices, and Service Units. It provides leadership in articulating the clinical, preventive, and public health needs of American Indian/ Alaska Native (AI/AN) communities and developing, managing, and administering program functions related to HIV/AIDS.

Purpose

The purpose of this IHS cooperative agreement is to meet community needs for the enhancement of HIV/AIDS testing activities and the provision of HIV/AIDS-related services among AI/AN people. Such programs are necessary to reduce the incidence of HIV/AIDS and improve quality of life for People Living with HIV/AIDS (PLWHA). The main goals are to: increase the number of AI/AN with awareness of his/her HIV status; and, improve engagement and retention in care among PLWHA. Awardee activities will seek to: increase access to HIV related services, reduce stigma, make HIV testing routine, and improve engagement in care. Emphasis should be placed on increasing routine HIV screening for adults as per 2006 Centers for Disease Control and Prevention (CDC) guidelines, provide pre- and post-test counseling (when indicated), and developing or deploying strategies for engaging PLWHA in appropriate, culturally responsive HIV-related care.

II. Award Information

Type of Award

Cooperative Agreement.

Estimated Funds Available

The total amount of funding identified for the current fiscal year FY 2012 is approximately \$180,000. Individual award amounts are anticipated to be between \$60,000 and \$90,000. Project Period

The project period will be for five years and will run consecutively from September 1, 2012 to August 31, 2017.

Cooperative Agreement

The funding agency (IHS) is required to have substantial programmatic involvement in the project during the entire award segment. Below is a detailed description of the level of involvement required for both IHS and the grantee. IHS will be responsible for activities listed under section A and the grantee will be responsible for activities listed under section B as stated:

Substantial Involvement Description for Cooperative Agreement

A. IHS Programmatic Involvement

Consultation and technical assistance will include, but not be limited to, the following areas:

(a) Interpretation of current scientific literature related to epidemiology, statistics, surveillance, Healthy People 2020 Objectives, and other HIV disease control activities;

(b) Design and implementation of program components (including, but not limited to, program implementation methods, surveillance, epidemiologic analysis, outbreak investigation, development of programmatic evaluation, development of disease control programs, and coordination of activities);

(c) Program management best practices;

(d) Conduct visits to assess program progress and mutually resolve problems, travel funding permitted and if needed; and

(e) Coordinate these activities with all IHS HIV activities on a national basis.

B. Grantee Cooperative Agreement Award Activities

diagnoses to local and State public health authorities in the region as required under existing public health statutes.

- Test at least one previously untested (not tested in the prior five years) patient for every \$75.00 in cooperative agreement funds received, inclusive of all ancillary and indirect costs.

- Collaborate with national IHS programs by providing standardized, anonymous HIV surveillance data on a quarterly basis, and in identifying and documenting best practices for implementing routine HIV testing.

- Participate in the development of systems for sharing, improving, and disseminating aggregate HIV data at a national level for purposes of advocacy for AI/AN communities, Government Performance Results Act of 1993 (GPRA), Healthy People 2020 and other national-level activities.

- Develop or deploy services for PLWHA to engage or re-engage (link) them into appropriate medical care, including treatment and prevention services for comorbid conditions.

- Provide a three page mid-year report and no more than a ten page summary annual report at the end of each project year. The report should establish the impact and outcomes of various methods of implementing routine screening tried during the funding period.

Neither the DGM nor the National HIV/AIDS Program will notify applicants that the application has been received.

- Email applications will not be accepted under this announcement.

Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS)

All IHS applicants and grantee organizations are required to obtain a DUNS number and maintain an active registration in the CCR database. The DUNS number is a unique 9-digit identification number provided by D&B which uniquely identifies your entity. The DUNS number is site specific; therefore, each distinct performance site may be assigned a DUNS number. Obtaining a DUNS number is easy, and

there is no charge. To obtain a DUNS number, you may access it through <http://fedgov.dnb.com/webform>, or to expedite the process, call (866) 705-5711.

Effective October 1, 2010, all HHS recipients were asked to start reporting information on subawards, as required by the Federal Funding Accountability and Transparency Act of 2006, as amended ("Transparency Act"). Accordingly, all IHS grantees must notify potential first-tier subrecipients that no entity may receive a first-tier subaward unless the entity has provided its DUNS number to the prime grantee organization. This requirement ensures the use of a universal identifier to enhance the quality of information available to the public pursuant to the "Transparency Act."

Central Contractor Registry (CCR)

Organizations that have not registered with CCR will need to obtain a DUNS number first and then access the CCR online registration through the CCR home page at <https://www.bpn.gov/ccr/default.aspx> (U.S. organizations will also need to provide an Employer Identification Number from the Internal Revenue Service that may take an additional 2-5 weeks to become active). Completing and submitting the registration takes approximately one hour to complete and your CCR registration will take 3-5 business days to process. Registration with the CCR is free of charge. Applicants may register online at <https://www.bpn.gov/ccrupdate/NewRegistration.aspx>.

Additional information on implementing the Transparency Act, including the specific requirements for DUNS and CCR, can be found on the IHS Grants Management, Grants Policy Web site: http://www.ihs.gov/NonMedicalPrograms/gogp/index.cfm?module=gogp_policy_topics.

VI. Award Administration Information

1. Award Notices

The Notice of Award (NoA) is a legally binding document signed by the Grants Management Officer and serves as the official notification of the grant award. The (NoA) will be initiated by the DGM and will be mailed via postal mail or emailed to each entity that is approved for funding under this announcement. The NoA is the authorizing document for which funds are dispersed to the approved entities and reflects the amount of Federal funds awarded, the purpose of the grant, the terms and conditions of the award, the effective date of the award, and the budget/project period.

Disapproved Applicants

Applicants who received a score less than the recommended funding level for approval, 60 and were deemed to be disapproved by the Objective Review Committee, will receive an Executive Summary Statement from the IHS Program Office within 30 days of the conclusion of the ORC outlining the weaknesses and strengths of their application submitted. The IHS program office will also provide additional contact information as needed to address questions and concerns as well as provide technical assistance if desired.

Approved But Unfunded Applicants

Approved but unfunded applicants that met the minimum scoring range and were deemed by the ORC to be "Approved", but were not funded due to lack of funding, will have their applications held by DGM for a period of 1 year. If additional funding becomes available during the course of FY 2012, the approved application maybe re-considered by the awarding program office for possible funding. You will also receive an Executive Summary Statement from the IHS Program Office within 30 days of the conclusion of the ORC.

Note: Any correspondence other than the official NoA signed by an IHS Grants Management Official announcing to the Project Director that an award has been made to their organization is not an authorization to implement their program on behalf of IHS.

This section applies to all grant recipients that request reimbursement of indirect costs (IDC) in their grant application. In accordance with HHS Grants Policy Statement, Part II-27, IHS requires applicants to obtain a current IDC rate agreement prior to award. The rate agreement must be prepared in accordance with the applicable cost principles and guidance as provided by the cognizant agency or office. A current rate covers the applicable grant activities under the current award's budget period. If the current rate is not on file with the DGM at the time of award, the IDC portion of the budget will be restricted. The restrictions remain in place until the current rate is provided to the DGM.

Generally, IDC rates for IHS grantees are negotiated with the Division of Cost Allocation (DCA) <http://rates.psc.gov/> and the Department of Interior (National Business Center) <http://www.aqd.nbc.gov/services/ICS.aspx>. If your organization has questions regarding the indirect cost policy, please call (301) 443-5204 to request assistance.

4. Reporting Requirements

Grantees must submit required reports consistent with the applicable

deadlines. Failure to submit required reports within the time allowed may result in suspension or termination of an active grant, withholding of additional awards for the project, or other enforcement actions such as withholding of payments or converting to the reimbursement method of payment. Continued failure to submit required reports may result in one or both of the following: (1) The imposition of special award provisions; and (2) the non-funding or non-award of other eligible projects or activities. This requirement applies whether the delinquency is attributable to the failure of the grantee organization or the individual responsible for preparation of the reports.

The reporting requirements for this program are noted below.

A. Progress Reports

Program progress reports are required semi annually, within 30 days after the budget period ends. These reports must include a brief comparison of actual accomplishments to the goals established for the period, or, if applicable, provide sound justification for the lack of progress, and other pertinent information as required. A final report must be submitted within 90 days of expiration of the budget/project period.

B. Financial Reports

Federal Financial Report FFR (SF-425), Cash Transaction Reports are due 30 days after the close of every calendar quarter to the Division of Payment Management, HHS at: <http://www.dpm.psc.gov>. It is recommended that you also send a copy of your FFR (SF-425) report to your Grants Management Specialist. Failure to submit timely reports may cause a disruption in timely payments to your organization.

Grantees are responsible and accountable for accurate information being reported on all required reports: the Progress Reports and Federal Financial Report.

C. Federal Subaward Reporting System (FSRS)

This award may be subject to the Transparency Act subaward and executive compensation reporting requirements of 2 CFR part 170.

The Federal Funding Accountability and Transparency Act of 2006, as amended ("Transparency Act"), requires the Office of Management and Budget (OMB) to establish a single searchable database, accessible to the public, with information on financial assistance awards made by Federal

agencies. The Transparency Act also includes a requirement for recipients of Federal grants to report information about first-tier subawards and executive compensation under Federal assistance awards.

Effective October 1, 2010 IHS implemented a Term of Award into all IHS Standard Terms and Conditions, NoAs and funding announcements regarding this requirement. This IHS Term of Award is applicable to all IHS grant and cooperative agreements issued on or after October 1, 2010, with a \$25,000 subaward obligation dollar threshold met for any specific reporting period. Additionally, all new (discretionary) IHS awards (where the project period is made up of more than one budget period) and where: (1) the project period start date was October 1, 2010 or after and (2) the primary awardee will have a \$25,000 subaward obligation dollar threshold during any specific reporting period will be required to conduct address the FSRS reporting. Office of Urban Indian Health Programs Funding Opportunity: Title V HIV/AIDS Program

Announcement Type: New Limited Competition.

Funding Announcement Number: HHS-2012-IHS-UIHP-0001.

Catalog of Federal Domestic Assistance Number: 93.193.

Key Dates

Application Deadline Date: July 16, 2012.

Review Date: July 30, 2012.

Earliest Anticipated Start Date: September 1, 2012.

I. Funding Opportunity Description

Statutory Authority

The Indian Health Service (IHS) is accepting limited competitive grant applications for the Office of Urban Indian Health Programs Title V HIV/AIDS program. This program is authorized under: The Indian Health Care Improvement Act, as amended, 25 U.S.C. 1653. This program is described in the Catalog of Federal Domestic Assistance under 93.193.

Justification for limited competition: The Minority AIDS Initiative funding that the grants are awarded from was awarded to the IHS specifically for Title V urban grantees.

Background. This limited competition announcement seeks to expand the Office of Urban Indian Health Programs' (OUIHP) existing Title V grants to increase awareness of HIV/AIDS status among urban American Indians/Alaska Natives (AI/AN) and to expand, as well as build, the capacity to diagnose and treat HIV/AIDS in the underserved urban AI/AN population. This will provide routine and/or rapid HIV screening, prevention, and pre- and post-test counseling (when appropriate). It will also include referral to services not provided on-site, outreach to high risk urban AI/AN populations, and follow-up with referred patients/clients. Enhancement of urban Indian health program HIV/AIDS activities is necessary to reduce the incidence of HIV/AIDS in the urban Indian communities by increasing access to

HIV related services, reducing stigma, and making testing routine.

Purpose

The purpose of this IHS grant announcement is to enhance HIV testing, including rapid testing and/or standard HIV antibody testing, and to provide a more focused effort to address HIV/AIDS prevention, targeting some of the largest urban Indian populations in the United States. It will also include outreach to high risk urban AI/AN populations, referral for services not provided on-site, and follow-up with referred patients/clients. The grantees will attempt to provide routine HIV screening for adults as per 2006 Centers for Disease Control and Prevention (CDC) guidelines and pre- and post-test counseling (when appropriate). These grants will be used to identify best practices to increase capacity at the local level, and assist urban Indian health program sites with meeting HIV testing and treatment needs in urban AI/AN populations in the United States. The nature of these projects will require collaboration with the OUIHP to: (1) Coordinate activities with the IHS National HIV Program; (2) participate in projects in other operating divisions of the Department of Health and Human Services (HHS), such as the CDC, Substance Abuse and Mental Health Services Administration, Health Resource and Services Administration, and the Office of HIV/AIDS Policy; and (3) to the extent permitted by law, submit and share anonymous, non-identifiable data on HIV/AIDS testing, treatment, and education. These grants are also intended to encourage development of sustainable, routine HIV screening programs in urban Indian health program facilities that are aligned with 2006 CDC HIV Screening guidelines (<http://www.cdc.gov/mmwr/preview/mmwrhtml/rr5514a1.htm>). Key features include streamlined consent and counseling procedures (verbal consent, opt-out), a clear HIV screening policy, identifying and implementing any necessary staff training, community awareness, and a clear follow-up protocol for HIV-positive results, including linkages to care. Grantees may choose to bundle HIV tests with sexually transmitted disease (STD) screening.
