

requires certain labeling on these products and their packaging to identify the name and address of the manufacturer or distributor and the model number of the product.

Additionally, the exemption regulation requires that records be established and maintained for 3 years that relate to testing, inspection, sales, and distributions of these products. The regulation does not specify a particular form or format for the records. Manufacturers and importers may rely on records kept in the ordinary course of business to satisfy the recordkeeping requirements, if those records contain the required information.

If a manufacturer or importer distributes products that violate the banning rule, the records required by section 1500.86(a)(4) can be used by the manufacturer or importer and the CPSC: (i) To identify specific models of products that fail to comply with applicable requirements, and (ii) to notify distributors and retailers if the products are subject to recall.

The OMB approved the collection of information requirements in the regulations under control number 3041-0019. OMB's most recent extension of approval expires on August 31, 2012. The CPSC now proposes to request an extension of approval, without change, for the collection of information requirements.

B. Estimated Burden

CPSC staff estimates that about 25 firms are subject to the testing and recordkeeping requirements of the regulations. Firms are expected to test on the average two new models per year per firm. CPSC staff estimates further that the burden imposed by the regulations on each of these firms is approximately 1 hour per year on the recordkeeping requirements and 30 minutes or less per model on the label requirements. Thus, the annual burden imposed by the regulations on all manufacturers and importers is approximately 50 hours on recordkeeping (25 firms × 2 hours) and 25 hours on labeling (25 firms × 1 hour) for a total annual burden of 75 hours per year.

CPSC staff estimates that the hourly wage for the time required to perform the required testing and recordkeeping is approximately \$61.24 (Bureau of Labor Statistics: Total compensation rates for management, professional, and related occupations in private goods-producing industries, December, 2011) and that the hourly wage for the time required to maintain the required records is about \$27.33 (Bureau of Labor Statistics: Total compensation rates for

sales and office workers in private goods-producing industries, December 2011). The annualized total cost to the industry is estimated to be \$3,745.

The Commission will expend approximately 2 days of professional staff time reviewing records required to be maintained by the regulations for baby-bouncers, and walker-jumpers. The annual cost to the federal government of the collection of information in these regulations is estimated to be about \$165. This is based on an average hourly wage rate of \$57.13 (the equivalent of a GS-14 Step 5 employee) with an additional 30.2 percent added for benefits (BLS, Percentage of total compensation comprised by benefits for all civilian management, professional, and related employees, December 2011), or \$82.56 × 2 hours.

C. Request for Comments

The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

- Whether the collection of information described above is necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;
- Whether the estimated burden of the proposed collection of information is accurate;
- Whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- Whether the burden imposed by the collection of information could be minimized by use of automated, electronic, or other technological collection techniques, or other forms of information technology.
