Records of the Wireless Radio Services may include information about individuals or households, and the use(s) and disclosure of this information is governed by the requirements of a system of records, FCC/WTB-1, "Wireless Services Licensing Records". However, the Commission makes all information within the Wireless Radio Services publicly available on its Universal Licensing System (ULS) Web page.

Nature and Extent of Confidentiality: Respondents may request materials or information submitted to the Commission be withheld from public inspection under 47 CFR 0.459 of their rules. Information within Wireless Radio Services is maintained in the Commission's system or records notice or 'SORN', FCC/WTB-1, "Wireless Services Licensing Records". These licensee records are publicly available and routinely used in accordance with subsection b of the Privacy Act of 1973, 5 U.S.C. 552a(b), as amended. Material that is afforded confidential treatment pursuant to a request made under 47 CFR 0.459 of the Commission's rules will not be available for public inspection.

The Commission has in place the following policy and procedures for records retention and disposal: Records will be actively maintained as long as the individual remains a licensee. Paper records will be archived after being keyed or scanned into the system and

destroyed when 12 years old; electronic records will be backed up and deleted twelve years after the licenses are no longer valid.

Needs and Uses: The Commission is seeking OMB approval for an extension of this information collection in order to obtain their full three year approval. There is no change to the reporting requirement. There is no change to the Commission's burden estimates.

The Wireless Telecommunications Bureau (WTB) of the FCC periodically conducts audits of the construction and/or operational status of various Wireless radio stations in its licensing database that are subject to rule-based construction and operational requirements. The Commission's rules for these Wireless services require construction within a specified timeframe and require a station to remain operational in order for the license to remain valid.

The information will be used by FCC personnel to assure that licensees' stations are constructed and currently operating in accordance with the parameters of the current FCC authorization and rules.

Federal Communications Commission.
