SUPPLEMENTARY INFORMATION: The Rocks Village Bridge, across the Merrimack River, mile 12.6, between Haverhill and West Newbury, Massachusetts, has a vertical clearance in the closed position of 17 feet at mean high water and 23 feet at mean low water. The drawbridge operation regulations are listed at 33 CFR 117.605(c).

The waterway is predominantly transited by small recreational vessels at the location of the Rocks Village Bridge.

The bridge is required to open upon a two hour advance notice as a result of infrequent requests to open the draw.

The owner of the bridge, Massachusetts Department of Transportation, requested a temporary deviation from the regulations to facilitate bridge rehabilitation repairs, replacement of operating machinery, structural steel, and highway deck on the swing span.

Under this temporary deviation the bridge may remain in the closed position from 7 a.m. on July 9, 2012 through 7 a.m. on July 12, 2012. Vessels that can pass under the closed draw may do so at all times.

In accordance with 33 CFR 117.35(e), the bridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: June 7, 2012.

Bridge Program Manager, First Coast Guard District.
