SUPPLEMENTARY INFORMATION: The Rocks Village Bridge, across the Merrimack River, mile 12.6, between Haverhill and West Newbury, Massachusetts, has a vertical clearance in the closed position of 17 feet at mean high water and 23 feet at mean low water. The drawbridge operation regulations are listed at 33 CFR 117.605(c).

The waterway is predominantly transited by small recreational vessels at the location of the Rocks Village Bridge.

The bridge is required to open upon a two hour advance notice as a result of infrequent requests to open the draw.

The owner of the bridge, Massachusetts Department of Transportation, requested a temporary deviation from the regulations to facilitate bridge rehabilitation repairs, replacement of operating machinery, structural steel, and highway deck on the swing span.

Under this temporary deviation the bridge may remain in the closed position from 7 a.m. on July 9, 2012 through 7 a.m. on July 12, 2012. Vessels that can pass under the closed draw may do so at all times.

In accordance with 33 CFR 117.35(e), the bridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: June 7, 2012.

NPRM Notice of Proposed Rulemaking

A. Regulatory History and Information

This fireworks display event is regulated at 33 CFR 165.506, Table to § 165.506, section (d.) line 4. The Coast Guard plans to permanently amend the regulation at 33 CFR 165.506 at a later date to reflect this change.

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because immediate action is needed to minimize potential danger to the public during the event. For this reason, it would be impracticable to publish an NPRM for this rule.

B. Basis and Purpose

Recurring fireworks displays are frequently held on or adjacent to the navigable waters within the boundary of the Fifth Coast Guard District. For a description of the geographical area of each Coast Guard Sector—Captain of the Port Zone, please see 33 CFR 3.25.

The regulation listing annual fireworks displays within the Fifth Coast Guard District and safety zones locations is 33 CFR 165.506. The Table to § 165.506 identifies fireworks displays by COTP zone, with the COTP North Carolina zone listed in section "(d.)" of the Table.

The township of Elizabeth City, North Carolina, sponsors an annual fireworks display held on July 4th over the waters of Pasquotank River at Elizabeth City, North Carolina. The Table to § 165.506, at section (d.) event Number "4", describes the enforcement date and regulated location for this fireworks event.

The location listed in the Table has the fireworks display originating from position latitude 36°18'00" N, longitude 076°13'00" W, a location on land on the southwest corner of Machelhe Island at Elizabeth City, North Carolina. However, this event changes the fireworks launch location on July 4, 2012, to a position on the Pasquotank River at latitude 36°17'47" N, longitude 076°12'17" W.
