52.3 allow APCO- and EPA-approved alternative mitigation measures that demonstrate at least 19%, 60%, or 80% reduction in VOC. However, these sections do not specify the test methods that will be used to demonstrate these VOC control efficiencies. EPA recommends that the next revision to SJVUAPCD Rule 4566 include the appropriate test methods and test protocol guidelines to determine percent VOC reduction (See, for example, South Coast Rule 1133.3). Finally, we recommend that, in order to determine compliance with the 5,000 tons per year foodwaste threshold and other percentage requirements, the SCAQMD add daily recordkeeping requirements for each type of raw material received, including the dates and amounts of the following: Foodwaste received, greenwaste received, manure received, and their monthly totals. The TSDs describe additional rule revisions that we recommend for the next time the local agencies modify the rules but are not currently the basis for rule disapproval.

D. Public Comment and Final Action

Because EPA believes the submitted rules fulfill all relevant requirements, we are proposing to fully approve them as described in section 110(k)(3) of the Act. We will accept comments from the public on this proposal for the next 30 days. Unless we receive convincing new information during the comment period, we intend to publish a final approval action that will incorporate these rules into the federally enforceable SIP.

III. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve State choices, provided that they meet Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this proposed action:

- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- Does not provide EPA with the discretionary authority to address disproportionate human health or environmental effects with practical, appropriate, and legally permissible methods under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed action does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the State, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 1 and 64
[CG Docket No. 12–129; FCC 12–56]

Implementation of the Middle Class Tax Relief and Job Creation Act of 2012: Establishment of a Public Safety Answering Point Do-Not-Call Registry

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: In this document, the Commission initiates a proceeding to create a Do-Not-Call registry for public safety answering points (PSAPs) as required by the “Middle Class Tax Relief and Job Creation Act of 2012” (Tax Relief Act). Specifically, section 6507 of the Tax Relief Act requires the Commission, among other things, to establish a registry that allows PSAPs to register telephone numbers on a Do-Not-Call list and prohibit the use of automatic dialing equipment to contact those numbers. Therefore, the Commission seeks comment on a variety of issues relating to the establishment and ongoing management of the PSAP registry. The proposed rules are designed to address concerns about the use automatic dialing equipment, which can generate large numbers of phone calls in a short period of time, tie up public safety lines, divert critical responder resources away from emergency services, and impede access by the public to emergency lines.
