All of the current McCaffrey’s supermarkets are located outside the relevant geographic area. Its Yardley, Pennsylvania, store is approximately six miles, and approximately 15 minutes driving time, from the Genuardi’s in Newtown. The Newtown Genuardi’s is outside McCaffrey’s primary service area and vice versa.

The proposed Order requires Respondents Ahold and Safeway to divest the assets of the Genuardi’s to McCaffrey’s no later than ten days following Ahold’s acquisition of the 16 Genuardi’s stores that are subject to the Asset Purchase Agreement. If McCaffrey’s ultimately is not approved by the Commission to purchase the assets, Respondents must immediately rescind the divestiture and divest the Newtown Genuardi’s assets to a buyer that receives the Commission’s prior approval. The proposed Order contains additional provisions designed to ensure the adequacy of the proposed relief. For example, for a period of one year, the Order prohibits Respondents from interfering with the hiring of or employment of any employees currently working at the Newtown Genuardi’s. Additionally, for a period of ten years, Ahold is required to give the Commission prior notice of plans to acquire a supermarket, or an interest in a supermarket, that has operated or is operating in Newtown, Pennsylvania.

Proposed Project

List of Ingredients Added to Tobacco in the Manufacture of Cigarette Products—Extension—Office on Smoking and Health, National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The Centers for Disease Control and Prevention (CDC), Office on Smoking and Health (OSH) has the primary responsibility for the Department of Health and Human Services (HHS) smoking and health program. HHS’s overall goal is to reduce death and disability resulting from cigarette smoking and other forms of tobacco use through programs of information, education and research.

Since 1986, as required by the Comprehensive Smoking Education Act of 1984 (CSEA, 15 U.S.C. 1336 or Pub. L. 98–474), CDC has collected information about the ingredients used in cigarette products. Respondents are commercial cigarette manufacturers, packagers, or importers (or their representatives), who are required by the CSEA to submit ingredient reports to HHS on an annual basis.

Respondents are not required to submit specific forms, however, they are required to submit a list of all ingredients used in their products. CDC requires the ingredient report to be submitted by chemical name and Chemical Abstract Service (CAS) Registration Number, consistent with accepted reporting practices for other companies currently required to report ingredients added to other consumer products. Typically, respondents submit a summary report to CDC with the ingredient information for multiple products, or a statement that there are no changes to their previously submitted ingredient report.

Ingredient reports for new products are due at the time of first importation. Thereafter, ingredient reports are due annually on March 31. Information is submitted to OSH by mailing a written report on the respondent’s letterhead, by CD, three-inch floppy disk, or thumb drive. Electronic mail submissions are not accepted. The estimated burden per response is 6.5 hours.

Upon receipt and verification of the annual ingredient report, OSH issues a Certificate of Compliance to the respondent. OSH also uses the information to report to the Congress (as deemed appropriate) discussing the health effects of these ingredients.

There are no costs to respondents other than their time. The total estimated annualized burden hours are 501.
