

authorizations for payment” remained a suitable proxy for actual “improper payments.” It is OCC’s determination that in some cases authorizations for payment represented the same figure as actual payments; in other cases authorizations for payment has represented a figure as much as 20% higher than actual payments. Many States reported errors found during the

desk audit review process that were due to missing or insufficient documentation or other misapplication of policy, but found that families were determined to be eligible for services and that the actual payment authorized was correct. Other States reported regulatory barriers in State law which prohibits recovery of over-authorization or over-payment as the result of agency

error. As such, this information collection will provide a methodology revision that will assess errors in eligibility determinations that will compare the amount authorized for payment with the actual payment.

Respondents: State grantees, the District of Columbia, and Puerto Rico.

Submission for OMB Review; Comment Request

Title: State Court Improvement Program.
OMB No.: 0970-0307.
Description: From the funds appropriated for the Promoting Safe and Stable Families Program (PSSF), \$10 million is reserved annually for each of three grants to facilitate the State Court Improvement Program (CIP) to facilitate court improvement in the handling of child abuse and neglect cases. The Court Improvement Program (CIP) is composed of three grants, the basic, data, and training grants, governed by two separate Program Instructions (PIs). The training and data grants are governed by the “new grant” PI and the basic grant is governed by the “basic grant” PI. Current PIs require

separate applications and program assessment reports for each grant. Every State applies for at least two of the grants annually and most States apply for all three. As many of the application requirements are the same for all three grants, this results in duplicative work and high degrees of repetition for State courts applying for more than one CIP grant.

The purpose of this Program Instruction is to streamline and simplify the application and reporting processes by consolidating the PIs into one single PI and requiring one single, consolidated application package and program assessment report per State court annually. These revisions will satisfy statutory programmatic requirements and reduce both the number of required responses and associated total burden hours for State courts. This new PI also describes programmatic and fiscal provisions and reporting requirements for the grants, specifies the application submittal and approval procedures for the grants for fiscal years 2012 through 2015, and identifies technical resources for use by State courts during the course of the grants. The agency uses the information received to ensure compliance with the statute and provide training and technical assistance to the grantees.

Respondents: State Courts.
