significantly during calendar years 2010 and 2011 after imposition of the SDGE Order.\footnote{See SQR at Exhibit 6.}

We have determined that the evidence submitted by the petitioners concerning a surge in imports of the allegedly circumventing merchandise in combination with affidavits that this merchandise is now being used instead of subject merchandise is sufficient for purposes of initiating an anticircumvention inquiry under section 781(d) of the Act and 19 CFR 351.225(j). We will consider and address the information and arguments raised by all parties, including the respondents, in the context of this inquiry.

The Department will not order the suspension of liquidation of entries of any additional merchandise at this time. However, in accordance with 19 CFR 351.225(i)(2), if the Department issues a preliminary affirmative determination, we will then instruct U.S. Customs and Border Protection to suspend liquidation and require a cash deposit of estimated duties on the merchandise.

Following consultation with interested parties, the Department will establish a schedule for questionnaires and comment periods on the issues. In accordance with section 781(e)(1) of the Act, we will establish a schedule for questionnaires that were issued to U.S. Customs and Border Protection for the purposes of initiating an anticircumvention inquiry under section 781(d) of the Act. The Department intends to issue its final determinations within 300 days of the date of publication of this notice. This notice is published in accordance with sections 781(c) and 781(d) of the Act and 19 CFR 351.225(i) and (j).

Dated: June 18, 2012.

Paul Piquado,
Assistant Secretary for Import Administration.

International Trade Administration

[A–570–979]
Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People’s Republic of China: Preliminary Determination Correction

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: Effective Date: June 25, 2012.

SUMMARY: On May 25, 2012, the Department of Commerce (the “Department”) published its notice of preliminary determination in the antidumping duty investigation of crystalline silicon photovoltaic cells, whether or not assembled into modules (“solar cells”), from the People’s Republic of China (“PRC”). The Department received comments from Delsolar Co., Ltd. and DelSolar (Wujiang) Ltd. (collectively, “DelSolar”) and JinkoSolar International Limited (“Jinko”) on May 22 and 25, 2012, respectively, concerning errors that the Department made with respect to the names of these companies in the table in the “Preliminary Determination” section in the solar cells from the PRC preliminary determination notice.

Correction

In the Federal Register notice Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People’s Republic of China: Preliminary Determination of Sales at Less Than Fair Value, Postponement of Final Determination and Affirmative Preliminary Determination of Critical Circumstances, 77 FR 31309 (May 25, 2012), under the section entitled “Preliminary Determination,” we incorrectly identified the producer “DelSolar (Wujiang) Ltd.” as “Delsolar Co., Ltd.” Additionally, the Department incorrectly placed a space between “Jinko” and “Solar” in the exporter name “JinkoSolar International Limited.” The exporter-producer combinations involving these companies should have been listed in the preliminary determination notice as follows:

<table>
<thead>
<tr>
<th>Exporter</th>
<th>Producer</th>
</tr>
</thead>
<tbody>
<tr>
<td>Delsolar Co., Ltd</td>
<td>DelSolar (Wujiang) Ltd.</td>
</tr>
<tr>
<td>JinkoSolar International Limited</td>
<td>Jinke Solar Co., Ltd.</td>
</tr>
</tbody>
</table>

We will revise the cash deposit instructions that were issued to U.S. Customs and Border Protection for the preliminary determination accordingly. This correction notice is published in accordance with section 777(i) of the Tariff Act of 1930, as amended.

Christian Marsh.

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

National Oceanic and Atmospheric Administration

RIN 0648–XC059
Endangered Species; File No. 17022

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that the NMFS Pacific Islands Fisheries Science Center (PIFSC; Samuel Pooley, Ph.D., Responsible Party), has applied in due form for a permit to take green (Chelonia mydas) and hawksbill (Eretmochelys imbricata) sea turtles for purposes of scientific research.

DATES: Written, telefaxed, or email comments must be received on or July 25, 2012.

ADDRESSES: The application and related documents are available for review by selecting “Records Open for Public Comment” from the Features box on the Applications and Permits for Protected Species (APPS) home page, https://apps.nmfs.noaa.gov, and then selecting File No. 17022 from the list of available applications.

These documents are also available upon written request or by appointment in the following offices:

Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427–8401; fax (301) 713–0376; and
Pacific Islands Region, NMFS, 1601 Kapiolani Blvd., Rm. 1110, Honolulu, HI 96814–4700; phone (808) 944–2200; fax (808) 973–2941.

Written comments on this application should be submitted to the Chief, Permits and Conservation Division:

- By email to NMFS.Pr1Comments@noaa.gov (include the File No. in the subject line of the email).
- By facsimile to (301) 713–0376, or
- At the address listed above.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Amy Hapeman or Colette Cairns, (301) 427–8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 et seq.) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222–226).

The PIFSC requests a five-year research permit to continue long-term monitoring of the status of green and hawksbill sea turtles in the remote U.S. islands and territories in the Central Pacific excluding Hawaii to begin long-term monitoring to estimate abundance, size ranges, health status, habitat use, foraging ecology, local movements, and migration routes for green and hawksbill sea turtles. Researchers would capture, examine, measure, flipper and passive integrated transponder tag, weigh, skin and blood sample, and attach transmitters on 220 green and 165 hawksbill sea turtles annually before release. Researchers also may collect the carcases, tissues and parts of dead sea turtles encountered during surveys.

P. Michael Payne,
Chief, Permits and Conservation Division,
Office of Protected Resources, National Marine Fisheries Service.

Marine Mammals; File No. 16163

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application for permit amendment.

SUMMARY: Notice is hereby given that the Northwest Fisheries Science Center (NWFSC, Dr. M. Bradley Hanson, Principal Investigator), 2725 Montlake Blvd. East, Seattle, WA 98112–2097, has applied for an amendment to Scientific Research Permit No. 16163.

DATES: Written, telefaxed, or email comments must be received on or before July 25, 2012.

ADDRESSES: The application and related documents are available for review by selecting “Records Open for Public Comment” from the Features box on the Applications and Permits for Protected Species home page, https://apps.nmfs.noaa.gov, and then selecting File No. 16163 from the list of available applications.

These documents are also available upon written request or by appointment in the following offices: See SUPPLEMENTARY INFORMATION.

FOR FURTHER INFORMATION CONTACT: Laura Morse or Jennifer Skidmore, (301) 427–8401.

Permit No. 16163, issued on June 5, 2012 (77 FR 35657), authorizes takes of forty-two species of marine mammals in all U.S. and international waters in the Pacific Ocean, including waters of Alaska, Washington, Oregon, California, and Hawaii. Harassment of all species of cetaceans will occur through vessel approach for sighting surveys, photographic identification, behavioral research, opportunistic sampling (breath, sloughed skin, fecal material, and prey remains), acoustic imaging with echosounders, and aerial surveys. Twenty-seven cetacean species and unidentified mesoplodont species will be biopsied, dart, and/or suction-cup tagged. Ultrasound sampling will be directed at killer whales including the Southern Resident stock. Active acoustic playback studies will be directed at Southern Resident killer whales. Import and export of marine mammal prey specimens, skin and blubber, sloughed skin, fecal and breath samples obtained is authorized. The permit is valid until June 6, 2017.

The permit holder is requesting the permit be amended to increase the takes associated with Level B harassment from 25 each per year to 2500 for short-beaked common (Delphinus delphis) and long-beaked common (D. capensis) dolphins. The purpose of the take increase is to correct an error in original application.

An environmental assessment (EA) and Finding of No Significant Impact (FONSI) (signed June 4, 2012) prepared for the permit analyzed the effects of Level B harassment of long- and short-beaked common dolphins and the determination was made that preparation of an environmental impact statement was not required. NMFS has further determined that the proposed increase in takes would not significantly impact the quality of the human environment and that preparation of a supplemental environmental assessment is not required. The EA and FONSI are available upon request.

Concurrent with the publication of this notice in the Federal Register, NMFS is forwarding copies of the amendment request to the Marine Mammal Commission and its Committee of Scientific Advisors.

Documents may be reviewed in the following locations:
