As set forth by the PRO IP Act, the objectives of the Joint Strategic Plan include:

- Reducing the supply of infringing goods, domestically and internationally;
- Identifying weaknesses, duplication of efforts, waste, and other unjustified impediments to effective enforcement actions;
- Promoting information sharing between participating agencies to the extent permissible by law;
- Disrupting and eliminating infringement networks in the U.S. and in other countries;
- Strengthening the capacity of other countries to protect and enforce intellectual property rights;
- Reducing the number of countries that fail to enforce intellectual property rights;
- Assisting other countries to more effectively enforce intellectual property rights;
- Protecting intellectual property rights in other countries by:
  - Working with other countries to reduce intellectual property crimes in other countries;
  - Improving information sharing between law enforcement agencies in the U.S. and in other countries; and
  - Establishing procedures for consulting with interested groups within other countries;
- Establishing programs to enhance the enforcement efforts of foreign governments by providing training and technical assistance designed to:
  - Enhance the efficiencies and minimize the duplication of U.S. Government training and assistance efforts;
  - Prioritize deployment of U.S. Government resources to those countries in which programs can be carried out most effectively and will have the greatest impact on reducing the number of infringing products in the relevant U.S. market, protecting the intellectual property rights of U.S. rights holders, and protecting the interests of U.S. persons otherwise harmed by infringements in other countries.
