A. Regulatory History and Information

A temporary safety zone for salvage operations resulting from high water incidents in the spring of 2011 was established under docket number USCG-2011-1077 (76 FR 60733). That safety zone was required as a safety measure to ensure protection for persons and vessels involved in the salvage operations and expired on February 15, 2012 when salvage was suspended due to river and weather conditions. This temporary final rule establishes a new safety zone implementing safety measures required for these salvage operations to now resume.

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest."

Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule. The Coast Guard received notice on May 14, 2012 that McKinney Salvage and Heavy Lift Inc. would resume maritime salvage operations in the vicinity of Baton Rouge, Louisiana. Due to forecasted river level stages averaging in the teens on the Baton Rouge river gauge around June 2, 2012, the opportunity to resume salvage operations is ideal and presents an immediate need for this safety zone. There is not time to perform the NPRM process for this rule without delaying the effective date for the temporary safety zone. Delaying this safety measure is contrary to the public interest because immediate action is necessary to protect the salvage crew, vessels, and mariners from the hazards

associated with ongoing maritime salvage operations.

For the same reasons, under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. The Coast Guard received notice on May 14, 2012 that McKinney Salvage and Heavy Lift Inc. would resume maritime salvage operations in the vicinity of Baton Rouge, Louisiana. Providing 30 days notice would be contrary to the public interest because it would delay the immediate action necessary to protect the salvage crew, vessels, and mariners from the hazards associated with ongoing maritime salvage operations.

B. Basis and Purpose

On May 14, 2012 the Coast Guard received notice that salvage operations would resume on the LMR from MM 230.0 to MM 237.0. These operations will begin on 7 a.m. CST June 2, 2012, and continue until 7 a.m. CST October 1, 2012. The Coast Guard determined that a safety zone is needed to protect the public, mariners, and vessels from the hazards associated with salvage operations the waterway. The operations that will be conducted are critical to maintaining safe navigation on the LMR. Any wake, beyond that created at minimum safe speed, or external force exerted on the salvage platform can compromise the safety of the salvage crew.

The legal basis and authorities for this rule are found in 33 U.S.C. 1231, 46 U.S.C. Chapter 701, 3306, 3703; 50 U.S.C. 191, 195; 33 CFR 1.05-1, 6.04-1, 6.04-6, and 160.5; Pub. L. 107-295, 116 Stat. 2064; and Department of Homeland Security Delegation No. 0170.1, which collectively authorize the Coast Guard to establish and define regulatory safety zones. To safeguard persons and property from the hazards associated with salvage operations performed on a waterway, the COTP New Orleans will establish a safety zone on the LMR from MM 230.0 to MM 237.0, 7 a.m. CST June 2, 2012, until 7 a.m. CST October 1, 2012.

C. Discussion of the Rule

The Captain of the Port New Orleans will implement a Safety Zone on the LMR extending the entire width of the river from MM 230.0 to MM 237.0. Mariners will be subject to requirements that will be listed in Marine Safety Information Bulletins from 7 a.m. CST on June 2, 2012 until 7 a.m. CST on October 1, 2012.

The temporary safety zone is needed due to McKinney Salvage and Heavy Lift Inc. conducting ongoing maritime
