

inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 69 hours per response. "Burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of printing, coating and dyeing of fabrics and other textiles.

Estimated Number of Respondents: 143.

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden: 21,271.

Estimated Total Annual Cost: \$2,044,793, which includes \$2,038,122 in labor costs, \$2,953 in capital/startup costs, and \$3,718 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is an adjustment increase in the total estimated burden hours and costs for both the respondents and the Agency as currently identified in the OMB Inventory of Approved Burdens. This increase is not due to any program changes. The increase in the burden and cost reflects a growth in the respondent universe since the last ICR renewal and an increase in labor rates. This ICR uses updated labor rates in estimating the costs for all labor categories.
