

FDI Tools and Components. The FDI Specification shall be marketed, promoted, and licensed to third parties through FDI's member foundations. FDI currently includes four working groups: (i) Specifications: This working group develops the technical specifications. The FDI Specification created by this working group has been submitted to the IEC standardization process. (ii) Tools and Components: This working group focuses on developing the requirements for the tools that will be created. The output of this working group is a set of requirements and a "Request for Proposal" (RFP) that will be issued to interested parties that will bid on the work. This working group will facilitate review of those bids, and after the deliverables are received, will facilitate acceptance testing. (iii) Tools and Architecture: This working group will manage the development of those tools and their incorporation into a complete toolset. (iv) EDDL Maintenance: The EDDL team was established to help IEC SC65A WG7 in maintaining the standards (IEC 61804 "EDDL") on which the FDI Specifications are based. Further information about FDI is available at <http://www.fdi-cooperation.com/>.
