

*Policy Justification—Kuwait—Joint
Helmet Mounted Cueing Systems
(JHMCS)*

The Government of Kuwait has requested a possible sale of 43 Joint Helmet Mounted Cueing System Cockpit Units, Single Seat Electronic Units, Helmet Display Units, spare and repair parts, support equipment, tool and test equipment, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical and logistics personnel services and other related elements of program and logistics support. The estimated cost is \$51 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The Government of Kuwait is modernizing its fighter aircraft fleet to better support its own air defense needs. This proposed sale will contribute to Kuwait's military goal of updating its capability while further enhancing its interoperability with the U.S. and other allies.

The proposed sale of this equipment will not alter the basic military balance in the region.

The principal contractors will be Boeing Aerospace in St. Louis, Missouri. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require travel of U.S. Government or contractor representatives to Kuwait on a temporary basis for program, technical support, and management oversight.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Army Science Board Summer Study Meeting

AGENCY: Department of the Army, DoD.

ACTION: Notice of open meeting.

SUMMARY: Pursuant to the Federal Advisory Committee Act of 1972 (5 U.S.C., Appendix, as amended), the Sunshine in the Government Act of 1976 (U.S.C. 552b, as amended) and 41

Code of the Federal Regulations (41 CFR 102-3. 140 through 160, the Department of the Army announces the following committee meeting:

Name of Committee: Army Science Board (ASB).

Date(s) of Meeting: July 26, 2012.

Time(s) of Meeting: 1530-1630.

Location: MIT Endicott House, 80 Haven Street, Dedham, MA 02026.

Purpose: Adopt the findings and recommendations for the following studies:

Strategic Direction for Army Science and Technology and Small Unit Data to Decisions.

Proposed Agenda:

Thursday 26 July 2012: 1530-1630—The study results for *Strategic Direction for Army Science and Technology and Small Unit Data to Decisions* studies are presented to the ASB. The ASB will deliberate and vote upon adoption of the findings and recommendations.

FOR FURTHER INFORMATION CONTACT: For information please contact Mr. Justin Bringhurst at justin.bringhurst@us.army.mil or (703) 617-0263 or Carolyn German at carolyn.t.german@us.army.mil or (703) 617-0258.

SUPPLEMENTARY INFORMATION: None.

Brenda S. Bowen,

Army Federal Register Liaison Officer.

BILLING CODE 3710-08-P

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

Notice of Availability of Draft Environmental Impact Statement for the Proposed Sierra Vista Specific Plan Project, in the City of Roseville, Placer County, CA, Corps Permit Application number SPK-2006-01050

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DOD.

ACTION: Notice of Availability.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA), the U.S. Army Corps of Engineers (USACE), Sacramento District has prepared a Draft Environmental Impact Statement (DEIS) that analyzes the potential effects of implementing the proposed action and alternatives for development of a large-scale, mixed-use, mixed-density master-planned community on the approximately 1,612-acre Sierra Vista Specific Plan area, located in the City of Roseville, Placer County, California. The DEIS documents the existing condition

of environmental resources in and around areas considered for development, and potential impacts on those resources as a result of implementing the alternatives. The alternatives considered in detail are: (a) No Action Alternative (no discharge of dredged and/or fill material into waters of the U.S.); (b) Proposed Action Alternative, the applicant group's preferred alternative; (c) Reduced Footprint/Increased Density Alternative; (d) Reduced Footprint/Same Density Alternative; (e) Focused Avoidance Alternative; and (f) Southwest Site, an off site alternative located in Southwest Placer County.

DATES: All written comments must be postmarked on or before 20 August 2012.

ADDRESSES: Comments may be submitted in writing to: James T. Robb, U.S. Army Corps of Engineers, Sacramento District, Regulatory Division; 1325 J Street, Room 1350, Sacramento, California 95814-2922, or via email to: DLL-CESPK-RD-EIS-Comments@usace.army.mil.

FOR FURTHER INFORMATION CONTACT: James T. Robb, (916) 557-7610.

SUPPLEMENTARY INFORMATION: This Draft Environmental Impact Statement (Draft EIS) analyzes the potential effects of authorizing, via Department of the Army (DA) permits, the discharge of dredged or fill material into Waters of the United States, for the development of the Sierra Vista Specific Plan (Proposed Action). The Proposed Action consists of nine developments and their associated infrastructure integrated under one specific plan. The Proposed Action includes the following uses: 820 acres (332 hectares) of residential uses totaling 6,650 single- and multi-family residential units at buildout, 216 acres (87 hectares) of commercial and office uses, 61 acres (25 hectares) of public/quasi-public uses such as schools, 91 acres (37 hectares) of parks, 234 acres (95 hectares) of open space, and 177 acres (72 hectares) of roadways and paseos. Development under the Proposed Action, if authorized, would fill approximately 24.81 acres (10.04 hectares) of wetlands and other jurisdictional waters of the United States as defined by the CWA. This discharge of fill material requires approval from the U.S. Army Corps of Engineers (USACE) pursuant to Section 404 of the federal Clean Water Act, under which the USACE issues or denies DA permits for activities involving a discharge of dredged or fill materials into the waters of the United States, including wetlands. The USACE
