SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is withdrawing RG 7.3 because its guidance has been superseded and is no longer needed. The RG was published in May 1975 to provide guidance on meeting the requirements in Title 10 of the Code of Federal Regulations (10 CFR) 20.205, "Procedures for Picking Up, Receiving, and Opening Packages." Regulatory Guide 7.3 provided guidance to licensees on making arrangements for receipt, pickup, and monitoring of packages containing radioactive material; and reporting when received packages showed evidence of leakage or excessive radiation levels.

Regulatory Guide 7.3 was issued after a rulemaking by the Atomic Energy Commission in 1974 that revised 10 CFR part 20, "Standards for Protection Against Radiation." This rulemaking was in response to two incidents resulting in excessive contamination and radiation exposures from improperly packaged radioactive

material. Since these requirements were new to the transportation community, the Atomic Energy Commission developed RG 7.3 to provide licensees with a method acceptable to the NRC staff for meeting the new requirements. In the 37 years since RG 7.3 was issued, there has been extensive experience by the transportation community on receiving and opening packages and the regulations in 10 CFR 20.205 have been replaced with new U.S. Department of Transportation regulations and 10 CFR 20.1906, "Procedures for Receiving and Opening Packages." Regulatory Guide 7.3 was not kept current. The NRC is withdrawing the RG because it is outdated and the relevant information contained in it has been updated and incorporated into Revision 1 of RG 7.7, "Administrative Guide for Verifying Compliance with Packaging Requirements for Shipment and Receipt of Radioactive material." Revision 1 of RG 7.7 was finalized in March 2012, a notice of its issuance was published in the **Federal Register** on March 28, 2012 (77 FR 18871).

II. Further Information

As explained above, the guidance provided in this RG is no longer necessary. Regulatory guides may be withdrawn when their guidance no longer provides useful information, such as when the guidance is superseded by technological developments, congressional actions, or other events.

Withdrawal of a RG means that the NRC staff no longer approves, as a generic matter, the guidance in the withdrawn RG. Therefore, an applicant or licensee who wishes to follow the guidance bears the responsibility of demonstrating in the appropriate circumstance, that the guidance in the withdrawn RG is applicable to the applicant's or licensee's specific situation. Current licensees who have included RG 7.3 in their licensing basis may continue to use it and withdrawal of the RG does not affect their existing licenses or agreements. Changes to existing licenses must be accomplished in accordance with applicable NRC requirements.

It states in NUREG/CR-4775, "Guide to Preparing Operating Procedures for Shipping Packages," issued December 1988, that licensees should reference RG 7.3 in their operating procedures for shipping packages. Because RG 7.3 is being withdrawn, the recommendation in NUREG/CR-4775 to reference RG 7.3 should not be relied on in the future and an applicant or licensee who wishes to follow this portion of the guidance in NURGE/CR-4775 bears the

responsibility of demonstrating, in the appropriate circumstance, that the guidance in the withdrawn regulatory guide is applicable to the applicant's or licensee's specific situation. Current licensees who have included RG 7.3 in their licensing basis because of the reference to it in NUREG/CR-4775 may continue to use RG 7.3, and withdrawal of the RG does not affect their existing licenses or agreements.

Regulatory guides and publicly available NRC documents are available on line in the NRC Library at: <http://www.nrc.gov/reading-rm/doc-collections/>. The documents can also be viewed online for free or printed for a fee in the NRC's PDR at 11555 Rockville Pike, Rockville, MD; the mailing address is USNRC PDR, Washington, DC 20555-0001; telephone: 301-415-4737, or 1-800-397-4209; fax 301-415-3548; or by email to pdr.resource@nrc.gov Regulatory guides are not copyrighted, and NRC approval is not required to reproduce them.

Dated at Rockville, Maryland, this 29th day of June 2012.
