SUPPLEMENTARY INFORMATION:

Background

Subsequent to the completion of the administrative review under the antidumping duty order on certain hot-rolled carbon steel flat products from India, U.S. Steel Corporation (U.S. Steel) and Nucor Corporation (Nucor) challenged certain aspects of the *Final Results* at the Court. On June 14, 2011, the Court remanded the *Final Results* and instructed the Department (1) to determine whether record evidence proved that Essar's contingent liability for deferred import duties under the duty-drawback program had been removed or permanently excused, and (2) to reevaluate the record evidence and change, or more fully explain, the selection of date of sale. *See U.S. Steel Corp. I*, 2011 WL 2421154 at *1, 4.

On remand, the Department recalculated Essar's weighted-average dumping margin using the invoice date as the date of sale, and revised Essar's weighted-average dumping margin to deny an adjustment for duty drawback for a specific invoice. *See, generally, First Remand Results*. At that time, the Department declined to make certain changes to Essar's cost of production to account for exempted duties. *See id.* at 7-8.

On April 11, 2012, the Court sustained in part and remanded in part the Department's *First Remand Results*. Specifically, the Court remanded the proceeding for a second time and instructed the Department (1) to correct a ministerial error in computer programming and (2) to adjust normal value by adding exempted duties to Essar's cost of production or to explain why the Department must depart from its recently-affirmed practice of allowing for such adjustments to the cost of production. *See U.S. Steel Corp. II*, 2012 WL 1259085 at *4.

On remand, the Department corrected the computer programming error. *See Second Remand Results* at 2-3. Moreover, in accordance with its established practice, the Department adjusted normal value by adding

exempted duties to Essar's cost of production. *See id.* at 3-4. As a result, Essar's weighted-average dumping margin changed from 5.22 percent to 9.01 percent. *See id.* at 5.

On June 28, 2012, the Court sustained the Department's *Second Remand Results* and entered judgment accordingly. *See U.S. Steel Corp. III*, Slip Op. 12-91 at 1-2.

Timken Notice

In its decision in *Timken*,¹ as clarified by *Diamond Sawblades*, the Federal Circuit has held that, pursuant to section 516A(e) of the Tariff Act of 1930, as amended (the Act), the Department must publish a notice of a court decision not "in harmony" with a Department determination and must suspend liquidation of entries pending a "conclusive" court decision. The Court's June 28, 2012, judgment sustaining the *Second Remand Results* constitutes a final decision of the Court that is not in harmony with the Department's *Final Results*. This notice is published in fulfillment of the publication requirement of *Timken*. Accordingly, the Department will continue the suspension of liquidation of the subject merchandise pending the expiration of the period of appeal, or if appealed, pending a final and conclusive court decision. The cash deposit rate will remain the company-specific rate established for Essar for the subsequent and most recent period during which the respondent was reviewed.²

Amended Final Determination

Because there is now a final court decision, we are amending the *Final Results* with respect to Essar's weighted-average dumping margin for the period December 1, 2005, through November 30, 2006. The revised weighted-average dumping margin is as follows:

Exporter	Weighted average dumping margin (percent)
Essar Steel Limited	9.01

In the event the Court's ruling is not appealed, or if appealed, upheld by the Federal Circuit, the Department will instruct U.S. Customs and Border Protection to assess antidumping duties on entries of the subject merchandise

exported by Essar using the revised assessment rate calculated by the Department in the *Second Remand Results*.

This notice is issued and published in accordance with sections 516A(e)(1), 751(a)(1), and 777(i)(1) of the Act.

SUPPLEMENTARY INFORMATION:

I. Abstract

Section 4(d) of the Endangered Species Act of 1973 (ESA; 16 U.S.C. 1531 et. seq.) requires the National Marine Fisheries Service (NMFS) to adopt such regulations as it "deems necessary and advisable to provide for the conservation of" threatened species. Those regulations may include any or all of the prohibitions provided in section 9(a)(1) of the ESA, which specifically prohibits "take" of any

endangered species ("take" includes actions that harass, harm, pursue, kill, or capture). The first salmonid species listed by NMFS as threatened were protected by virtually blanket application of the section 9 take prohibitions. There are now 22 separate Distinct Population Segments (DPS) of west coast salmonids listed as threatened, covering a large percentage of the land base in California, Oregon, Washington and Idaho. NMFS is obligated to enact necessary and advisable protective regulations. NMFS makes section 9 prohibitions generally applicable to many of those threatened DPS, but also seeks to respond to requests from states and others to both provide more guidance on how to protect threatened salmonids and avoid take, and to limit the application of take prohibitions wherever warranted (see 70 FR 37160, June 28, 2005, 71 FR 834, January 5, 2006, and 73 FR 55451, September 25, 2008). The regulations describe programs or circumstances that contribute to the conservation of, or are being conducted in a way that limits impacts on, listed salmonids. Because we have determined that such programs/circumstances adequately protect listed salmonids, the regulations do not apply the "take" prohibitions to them. Some of these limits on the take prohibitions entail voluntary submission of a plan to NMFS and/or annual or occasional reports by entities wishing to take advantage of these limits, or continue within them.
