Title of Proposal: Public Housing Agency (PHA) Lease and Grievance Requirements.

OMB Approval Number: 2577–0006.

Description of the Need for the Information and Its Proposed Use: The Public Housing lease and grievance procedures are a recordkeeping requirement on the part of Public Housing agencies (PHAs) as they are required to enter into and maintain lease agreements for each individual or family that occupies a Public Housing unit. Also, both PHAs and tenants are required to follow the protocols set forth in the grievance procedures for both an informal and formal grievance hearing. The current revision was needed to correct errors in the 2009 calculation. The earlier calculation had over the amount of time needed to complete the form. The previous submission incorrectly included the number of responding PHAs in the calculation and also incorrectly assumed that 100% of households would be reviewing or initiating a lease. The correction of the errors brought the number of burden hours down from 5,671,800 to 339,822.

Agency form number, if applicable: None.

Members of Affected Public: Public housing applicants and households.

Estimation of the Total number of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: Estimated number of respondents: 3,144. The respondents collect information for 1,181,986 households. The calculation for burden hours is as follows: Calculation for number of respondents: 1,181,986 × 1.15 (median number of new leases + changes + grievances) × 15 minutes (.25 of an hour, median time to complete) = 339,822 total hours.

Status of the Proposed Information Collection: Revision.

Dated: July 13, 2012.

Merrie Nichols-Dixon,
Deputy Director, Office of Policy, Program and Legislative Initiatives.

We, the U.S. Fish and Wildlife Service, have issued the following permits, between January and June 2012, to conduct certain activities with endangered species. The Endangered Species Act of 1973, as amended (Act), prohibits activities with endangered and threatened species unless a Federal permit allows such activity. The Act also requires that we invite public comment before issuing these permits for endangered species.

SUPPLEMENTARY INFORMATION:

Background

The Act (16 U.S.C. 1531 et seq.) prohibits activities with endangered and threatened species unless a Federal permit allows such activity. Along with our implementing regulations in the Code of Federal Regulations (CFR) at 50 CFR part 17, the Act provides for permits. A permit granted by us under section 10(a)(1)(A) of the Act authorizes applicants to conduct activities with United States endangered or threatened species for scientific purposes, enhancement of propagation or survival, or interstate commerce (the latter only in the event that it facilitates scientific purposes or enhancement of propagation or survival). Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

We have issued the following permits in response to incidental take and recovery permit applications we received under the authority of section 10 of the Act (16 U.S.C. 1531 et seq.). Each permit listed below was issued only after we determined that it was applied for in good faith; that granting it would not be to the disadvantage of the listed species; and that the terms and conditions of the permit were consistent with the purposes and policies set forth in the Act.
