Nature and Extent of Confidentiality: Outage reports filed pursuant to Part 4 of the Commission's rules are presumed confidential. The information in the filings may be shared with the Department of Homeland Security only under appropriate confidential disclosure provisions. Other persons seeking disclosure must follow the procedures delineated in 47 CFR 0.457 and 0.459 of the Commission's rules for requests for and disclosure of information.

Needs and Uses: The Commission will submit this revised information

collection to the Office of Management and Budget (OMB) during this comment period to obtain the full, three year clearance from them. The Commission is reporting a 9,909 hour program change increase to the Commission's previous burden estimates. The increase in the burden is due to adoption of FCC 12-22, Report and Order, extending the Part 4 outage reporting requirements to interconnected Voice Over Internet Protocol (VoIP) which are new respondents subject to the requirements of this information collection.

Specifically, the Commission extended mandatory outage reporting rules to facilities-based and non-facilities based interconnected VoIP service providers and applied the current Part 4 definition of "outage" to outages of interconnected VoIP service, covering the complete loss of service and/or connectivity to customers at least 30 minutes duration that potentially affects at least 900,000 user minutes of interconnected VoIP services and results in complete loss of service; or potentially affects any special offices and facilities such as a 911 facility.

Collecting data on significant outages of interconnected VoIP services will help the Commission to monitor compliance with the statutory 911 obligations of interconnected VoIP service providers, as well as help ensure the Nation's current and future 911 systems are as reliable and resilient as possible both on a day-to-day basis and in times of a major emergency. The Commission recognizes that consumers are increasingly relying on Internet Protocol (IP)-based technologies as substitutes for communications services provided by older communications technologies, and increasingly use interconnected VoIP services in lieu of traditional telephone service. As of December 31, 2010, 31 percent of the more than 87 million residential telephone subscriptions in the United States were users of interconnected VoIP providers—an increase of 21 percent (from 22.4 million to 27.1 million) from the end of 2009. Additionally, the Commission estimates that approximately 31 percent of residential wireline 911 calls are made using VoIP service.

The information collected is administered by the FCC's Public Safety and Homeland Security Bureau (PSHSB) which maintains an Internet Web site portal for the electronic submission of the required outage reports. In addition, provision is made for the submission of required data by other than electronic means in cases where electronic submission is not feasible. In cases where specified offices and facilities

(other than 911 offices and facilities) are submitted with 120 minutes of an outage to the Commission's duty officer (a post staffed 24 hours a day) in the FCC's Communications and Crisis Management Center in Washington, DC.

No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before August 20, 2012. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0931.

The reporting requirement is contained in international agreements and ITU-R M.541.9.

Total Annual Burden: 10,000 hours.

Total Annual Cost: N/A.

Privacy Impact Assessment: Yes. The FCC maintains a system of records notice (SORN), FCC/WTB-1, “Wireless Services Licensing Records” that covers the collection, purpose(s), storage, safeguards, and disposal of the PII that marine VHF radio licensees maintain under 47 CFR 80.103.

Nature and Extent of Confidentiality: There is a need for confidentiality with respect to all owners of Marine VHF radios with Digital Selective Calling (DSC) capability in this collection. The information collected is necessary to require owners of marine VHF radios with Digital Selective Calling (DSC) capability to register information such as the name, address, type of vessel with a private entity issuing marine mobile service identities (MMSI). The information would be used by search and rescue personnel to identify vessels in distress and to select the proper rescue units and search methods. The requirement to collect this information is contained in international agreements with the U.S. Coast Guard and private sector entities that issue MMSI’s.

The information is used by private entities to maintain a database used to provide information about the vessel owner in distress using marine VHF radios with DSC capability. If the data were not collected, the U.S. Coast Guard would not have access to this information which would increase the time and effort needed to complete a search and rescue operation.

Proposed Project: – OS Think Cultural Health -OMB No. 0990-NEW- The Office of Minority Health (OMH)

Abstract: The Office of Minority Health (OMH), Office of the Secretary (OS), Department of Health and Human Services (DHHS) is requesting approval from OMB for the Think Cultural Health (TCH) Web site. The Web site is used to post information such as cultural competency, language access and health disparities articles, and notices of health disparities conferences for visitors to the site. The TCH Web site is unlike other government sites, in that it offers users the ability to gain cultural health competency credits through on-line training and resources in addition to offering users the option of receiving a newsletter.

It supports the Office of Minority Health within the Office of the Secretary of the Department of Health and Human Services (HHS/OS/OMH) in complying with the cultural competency requirements of the Patient Protection and Affordable Care Act of 2010 (ACA) (P.L.111-148), as well as the Secretary’s Plan to Reduce Racial and Ethnic Health Disparities, the National Stakeholder Strategy for Achieving Health Equity, Healthy People 2020, the Secretary’s Strategic Plan priorities, and the Assistant Secretary for Health’s Public Health Quality agenda.
