No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before August 20, 2012. If you anticipate that you will be submitting PRA comments, but find it
difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

**ADDRESSES:** Submit your PRA comments to Nicholas A. Fraser, Office of Management and Budget (OMB), via fax at 202–395–5167 or via Internet at Nicholas_A.Fraser@omb.eop.gov and to Judith B. **FOR FURTHER INFORMATION CONTACT:** Judith B. Herman, Office of Managing Director, FCC, at 202–418–0214.

**SUPPLEMENTARY INFORMATION:**

**OMB Control Number:** 3060–0484.

**Title:** Sections 4.1 and 4.2, Part 4 of the Commission's Rules Concerning Disruptions to Communications (NORS).

**Form Number:** N/A.

**Type of Review:** Revision of a currently approved collection.

**Respondents:** Business or other for-profit entities and not-for-profit institutions.

**Number of Respondents:** 118

**Estimated Time per Response:** 0.459 of the Commission's rules for procedures delineated in 47 CFR 0.457 seeking disclosure must follow the procedures delineated in 47 CFR 0.457 and 0.459 of the Commission's rules for requests for and disclosure of information.

**Needs and Uses:** The Commission will submit this revised information collection to the Office of Management and Budget (OMB) during this comment period to obtain the full, three year clearance from them. The Commission is reporting a 9,909 hour program change increase to the Commission's previous burden estimates. The increase in the burden is due to adoption of FCC 12–22, Report and Order, extending the Part 4 outage reporting requirements to interconnected Voice Over Internet Protocol (VoIP) which are new respondents subject to the requirements of this information collection.

Specifically, the Commission extended mandatory outage reporting rules to facilities-based and non-facilities based interconnected VoIP service providers and applied the current Part 4 definition of "outage" to outages of interconnected VoIP service, covering the complete loss of service and/or connectivity to customers at least 30 minutes duration that potentially affects at least 900,000 user minutes of interconnected VoIP services and results in complete loss of service; or potentially affects any special offices and facilities such as a 911 facility.

Collecting data on significant outages of interconnected VoIP services will help the Commission to monitor compliance with the statutory 911 obligations of interconnected VoIP service providers, as well as help ensure the Nation's current and future 911 systems are as reliable and resilient as possible both on a day-to-day basis and in times of a major emergency. The Commission recognizes that consumers are increasingly relying on Internet Protocol (IP)-based technologies as substitutes for communications services provided by older communications technologies, and increasingly use interconnected VoIP services in lieu of traditional telephone service. As of December 31, 2010, 31 percent of the more than 87 million residential telephone subscriptions in the United States were users of interconnected VoIP providers—an increase of 21 percent (from 22.4 million to 27.1 million) from the end of 2009. Additionally, the Commission estimates that approximately 31 percent of residential wireline 911 calls are made using VoIP service.

The information collected is administered by the FCC's Public Safety and Homeland Security Bureau (PSHSB) which maintains an Internet Web site portal for the electronic submission of he required outage reports. In addition, provision is made for the submission of required data by other than electronic means in cases where electronic submission is not feasible. In cases where specified offices and facilities (other than 911 offices and facilities) are submitted with 120 minutes of an outage to the Commission’s duty officer (a post staffed 24 hours a day) in the FCC's Communications and Crisis Management Center in Washington, DC.
