SUPPLEMENTARY INFORMATION:

Background

On February 23, 2001, the Department of Commerce (the Department) published the antidumping duty orders on butt-weld pipe fittings from Italy, Malaysia, and the Philippines.¹ On November 1, 2011, the Department published a notice of initiation of its second five-year (sunset) reviews of the antidumping duty orders on butt-weld pipe fittings from Italy, Malaysia, and the Philippines.²

As a result of these sunset reviews, the Department determined that revocation of the antidumping duty orders on butt-weld pipe fittings from Italy, Malaysia, and the Philippines would likely lead to continuation or recurrence of dumping and, therefore, notified the U.S. International Trade Commission (Commission) of the magnitude of the margins likely to prevail should these orders be revoked.³

On July 5, 2012, the Commission published its determination in the **Federal Register**, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act), that revocation of the antidumping duty orders on butt-weld pipe fittings from Italy, Malaysia, and the Philippines would likely lead to a continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.⁴

Scope of the Orders

For purposes of the orders, the product covered is certain stainless steel butt-weld pipe fittings (butt-weld fittings). Butt-weld pipe fittings are under 14 inches in outside diameter (based on nominal pipe size), whether finished or unfinished. The product encompasses all grades of stainless steel and “commodity” and “specialty” fittings. Specifically excluded from the definition are threaded, grooved, and

bolted fittings, and fittings made from any material other than stainless steel.

The butt-weld fittings subject to the orders are generally designated under specification ASTM A403/A403M, the standard specification for Wrought Austenitic Stainless Steel Piping Fittings, or its foreign equivalents (e.g., DIN or JIS specifications). This specification covers two general classes of fittings, WP and CR, of wrought austenitic stainless steel fittings of seamless and welded construction covered by the latest revision of ANSI B16.9, ANSI B16.11, and ANSI B16.28. Butt-weld fittings manufactured to specification ASTM A774, or its foreign equivalents, are also covered by the orders.

The orders do not apply to cast fittings. Cast austenitic stainless steel pipe fittings are covered by specifications A351/A351M, A743/743M, and A744/A744M.

The butt-weld fittings subject to the orders are currently classifiable under subheading 7307.23.0000 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the orders is dispositive.

Continuation of the Orders

As a result of the determinations by the Department and the Commission that revocation of the antidumping duty orders would likely lead to continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, the Department hereby orders the continuation of the antidumping duty orders on butt-weld pipe fittings from Italy, Malaysia, and the Philippines.

U.S. Customs and Border Protection will continue to collect antidumping duty cash deposits at the rates in effect at the time of entry for all imports of subject merchandise. The effective date of the continuation of these orders will be the date of publication in the **Federal Register** of this notice of continuation. Pursuant to section 751(c)(2) of the Act, the Department intends to initiate the next sunset reviews of these orders not later than 30 days prior to the fifth anniversary of the effective date of continuation.

These sunset reviews and this notice are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act.

Dated: July 11, 2012.

Ronald K. Lorentzen,

Acting Assistant Secretary for Import Administration.

recreational shallow-water grouper harvest. In other actions, the AP will review a scoping document for a possible amendment to designate petroleum platforms and artificial reefs as essential fish habitat. The AP will also reconsider its recommendations from an October 2011 meeting on vermilion snapper annual catch limits in light of revised analysis and new acceptable biological catch recommendations from the Scientific and Statistical Committee. In addition, the AP will review updated information on fish venting and recompression, and may consider recommendations for changes to the current regulations requiring possession and use of venting tools when fishing for reef fish.

Gulf of Mexico Fishery Management Council; Public Hearings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Council to convene public hearings.

SUMMARY: The Gulf of Mexico Fishery Management Council (Council) will convene public hearings on a proposed generic amendment addressing Federal seafood dealer permits.

DATES: The public hearings will be held from August 6-9, 2012 at nine locations throughout the Gulf of Mexico. The public hearings will begin at 6 p.m. and will conclude no later than 9 p.m. For specific dates, see **SUPPLEMENTARY INFORMATION**.

ADDRESSES: The public hearings will be held in the following locations: Tampa, Key West and Panama City, FL; Houma, LA; Biloxi, MS; Mobile, AL; Brownsville, Galveston and Corpus Christi, TX.

Council address: Gulf of Mexico Fishery Management Council, 2203 N. Lois Avenue, Suite 1100, Tampa, FL 33607.

FOR FURTHER INFORMATION CONTACT: Dr. John Froeschke, Fishery Biologist-Statistician; Gulf of Mexico Fishery Management Council; telephone: (813) 348-1630 x235.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico Fishery Management Council will convene Public Hearings on a proposed generic amendment addressing Federal seafood dealer permits. A seafood dealer is the person who first receives fish by way of purchase, barter, or trade. Seafood dealers buy product from commercial fishermen and sell directly to restaurants, markets, other dealers, processors, or consumers without substantially altering the product. NOAA Fisheries Service issues Federal dealer permits on an annual basis to those individuals or organizations that wish to become a seafood dealer. The Gulf Council is considering changes the current permit and reporting requirements for those individuals or organizations that purchase species managed by the Gulf of Mexico and South Atlantic Councils to ensure landings of managed fish stocks are recorded accurately and in a timely manner so annual catch limits are not exceeded. Modification of fishery management plans would affect species managed solely by the Gulf of Mexico Council or the South Atlantic Councils, as well as species managed by both Councils.

The nine public hearings will begin at 6 p.m. and conclude at the end of public testimony or no later than 9 p.m. at the following locations:
