Needs and Uses: After the 60 day comment period is complete, the Commission is seeking OMB approval for a revision in order to obtain the full three year clearance from them. The Commission is revising this information collection due to Commission rule changes that no longer require price-cap regulated carriers and competitive carriers to file cost or loop count data. These rule changes resulted in a decrease of 36,479 hours due to a decrease in the estimated number of respondents (835) and responses (5,980).

In order to determine which carriers are entitled to universal service support, all rate-of-return incumbent local exchange carriers (LECs) must provide the National Exchange Carrier Association (NECA) with the loop cost and loop count data required by 47 CFR 63.611 of the Commission’s rules for each of its study areas and, if applicable, for each wire center (that term is defined in 47 CFR Part 54). Loops are the telephone lines running from the carrier’s switching facilities to the customer. The loop cost and loop count information are to be filed annually with NECA by July 31st of each year, and may be updated quarterly pursuant to 47 CFR 63.612. Pursuant to section 36.613, the information filed on July 31st of each year will be used to calculate universal service support for each study area and is filed by NECA with the Commission by October 1 of each year. An incumbent LEC is defined as a carrier that meets the definition of “incumbent local exchange carrier” in 47 CFR 51.5.

As detailed in the Supporting Statement that will be submitted to the OMB for review and approval, the Commission proposes changes to certain parts of FCC Form 498 to improve the efficiency of administering the universal support mechanism. Specifically, the Commission is proposing:

1. Adding an additional field for a company’s Federal Registration Number (FRN);
2. Adding a column for the Study Area Code Company Name;
3. Adding the ability for a carrier to designate an alternate bank account for the payment of BEAR funds;
4. Adding a box and supplemental sheet that allows respondents to include information about affiliates;
5. Updating the Principal Communications Types to include additional business types as listed on the FCC Form 499–A; and
6. Adding a box on the form that will allow service providers to cease participation in the associated program without having to deactivate their entire SPIN. The information collected on FCC Form 498 is used by the Universal Service Administrative Company (USAC) to provide federal universal service support consistent with the specifications of carriers and service providers who participate and receive support from any of the four universal service support programs (High-Cost, Low-Income, Rural Health Care and Schools and Libraries). FCC Form 498 submissions also provide USAC with updated contact information, enabling USAC to contact universal service fund participants when necessary.
