SUPPLEMENTARY INFORMATION:

A. Purpose

Federal Acquisition Regulation (FAR) Subpart 4.11 prescribes policies and procedures for requiring contractor registration in the Central Contractor Registration (CCR) database. The CCR is the primary vendor database for the U.S. Federal Government. CCR collects,

validates, stores, and disseminates data in support of agency acquisition missions.

Both current and potential Federal Government vendors are required to be registered in CCR in order to be awarded contracts by the Federal Government. Vendors are required to complete a one-time registration to provide basic information relevant to procurement and financial transactions. Vendors must update or renew their registration at least once per year to maintain an active status.

CCR validates the vendor information and electronically shares the secure and encrypted data with Federal agency finance offices to facilitate paperless payments through electronic funds transfer. Additionally, CCR shares the data with Federal Government procurement and electronic business systems.

B. Annual Reporting Burden

The estimated annual total burden hours are 87,532. This is a slight decrease from the annual burden hours previously published in the **Federal Register** at 74 FR 31035, on June 29, 2009. The previous estimate derived from the number of large and small business contractors who received new awards or orders of \$25K or more in fiscal year 2004. This latest estimate is derived from a weighted average of the hours of the unique vendors, newly and previously registered in CCR, who received contract awards in fiscal year 2011.

Respondents: 193,397.

Responses per Respondent: 1.

Annual Responses: 193,397.

Hours per Response: .4526.

Total Burden Hours: 87,532.
