Notice of Issuance of Final Air Permits for BHP Billiton Petroleum, Inc., Murphy Exploration and Production Co., and Eni US Operating Co., Inc.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final action.

SUMMARY: This notice is to announce that on May 11, 2012, EPA issued a final Outer Continental Shelf (OCS) air permit for Murphy Exploration and Production Co. (Murphy), and on May 30, 2012, EPA issued a final OCS air permit for BHP Billiton Petroleum, Inc., (BHPB). These permits became effective on June 11, 2012, and June 30, 2012, respectively. In addition, EPA issued a final OCS air permit modification for Eni US Operating Company, Inc. (Eni) on May 8, 2012 that was effective on May 11, 2012.

The Murphy permit regulates air pollutant emissions from the Diamond Offshore *Ocean Confidence* drilling vessel and support vessels, which Murphy intends to operate within lease block Lloyd Ridge 317 on the OCS in the Gulf of Mexico, approximately 135 miles southeast of the mouth of the Mississippi River and 180 miles south of the nearest Florida coast.

The BHPB permit regulates air pollutant emissions from one of two drilling vessels owned by Transocean, either the *C.R. Luigs* or the *Development Driller 1*, and support vessels, which BHPB intends to operate in multiple locations in BHPB's DeSoto Canyon lease blocks on the OCS in the Gulf of Mexico, approximately 120 miles southeast of the mouth of the Mississippi River and 125 miles from the nearest Alabama and Florida coast.

The Eni permit regulates air pollutant emissions from the Transocean *Pathfinder* drilling vessel and support vessels, which Eni intends to operate within lease block Lloyd Ridge 411 on the OCS in the Gulf of Mexico, approximately 154 miles southeast of the mouth of the Mississippi River and 189 miles south of the nearest Florida coast. All three operations will last less than two years, and based on applicable permitting regulations, are "temporary sources" for permitting purposes.

ADDRESSES: The final permits, EPA's response to the public comments for the Murphy and BHPB permits, and additional supporting information are available at <http://www.epa.gov/region4/air/permits/index.htm>. Copies of the final permits and EPA's response to comments are also available for review at EPA Regional Office and upon request in writing.
