CNPP works to improve the health and well-being of Americans by developing and promoting dietary guidance that links scientific research to the nutrition needs of consumers. CNPP has among its major functions the development and coordination of nutrition policy within USDA and is involved in the investigation of techniques for effective nutrition communication. Under Subtitle D of the National Agriculture Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3171–3175), the Secretary of Agriculture is required to develop and implement a national food and human nutrition research and extension program, including the development of techniques to assist consumers in selecting food that supplies a nutritionally adequate diet.

Pursuant to 7 CFR 2.19(a)(3), the Secretary of Agriculture has delegated authority to CNPP for, among other things, developing materials to aid the public in selecting food for good nutrition; coordinating nutrition education promotion and professional education projects within the Department; and consulting with the Federal and State agencies, the Congress, universities, and other public and private organizations and the general public regarding food consumption and dietary adequacy.

The products for these initiatives will be tested using qualitative and possibly quantitative consumer research techniques, which may include focus groups (with general consumers or with specific target groups such as low-income consumers, children, older Americans, educators, students, etc.), interviews (i.e., intercept, individual,

diads, triads, usability testing, etc.), and Web-based surveys. Information collected from participants will be formative and will be used to improve the clarity, understandability, and acceptability of the resources, messages and products. Information collected will not be nationally representative, and no attempt will be made to generalize the findings to be nationally representative or statistically valid.

SUPPLEMENTARY INFORMATION:

Definitions

The terms used in this notice have the meanings ascribed to them in the Child and Adult Care Food Program regulations, 7 CFR part 226.

Background

Pursuant to sections 4, 11, and 17 of the Richard B. Russell National School Lunch Act (42 U.S.C. 1753, 1759a and 1766), section 4 of the Child Nutrition Act of 1966 (42 U.S.C. 1773) and 7 CFR 226.4, 226.12 and 226.13 of the Program regulations, notice is hereby given of the new payment rates for institutions

participating in the Child and Adult Care Food Program (CACFP). These rates are in effect during the period, July 1, 2012 through June 30, 2013.

As provided for under the law, all rates in the CACFP must be revised annually, on July 1, to reflect changes in the Consumer Price Index (CPI), published by the Bureau of Labor Statistics of the United States Department of Labor, for the most recent 12-month period. In accordance with this mandate, the United States Department of Agriculture (USDA) last published the adjusted national average payment rates for centers, the food service payment rates for day care homes, and the administrative reimbursement rates for sponsoring organizations of day care homes, for the period from July 1, 2011 through June 30, 2012, on July 20, 2011, at 76 FR 43254. A correction to the table of administrative reimbursement rates was published on July 26, 2011, at 76 FR 44573.

Adjusted Payments

The following national average payment factors and food service payment rates for meals and snacks are in effect from July 1, 2012 through June 30, 2013. The District of Columbia, Virgin Islands, Puerto Rico, and Guam use the figures specified for the contiguous States.

These rates do not include the value of USDA foods or cash-in-lieu of USDA foods which institutions receive as additional assistance for each lunch or supper served to participants under the Program.
