Next Steps

We will evaluate the submitted comments and revise the HCP and EA, as appropriate. In compliance with section 7(a)(2) of the ESA, we will analyze whether issuance of the permits would jeopardize listed, proposed, or candidate species or adversely modify any designated or proposed critical habitat. We will then determine whether the permit applications meet the requirements of section 10(a) of the ESA. We will use the results of all these analyses in a final findings document to determine whether to issue the permits. Pursuant to section 10(a)(1)(b) of the ESA, we will issue the permits to the applicants if the requirements are met.

Public Comments

We invite the public to comment on the proposed HCP and draft EA during a 60-day public comment period ending on the date specified above in DATES. Comments can be submitted to the WCESO (see ADDRESSES). All comments received, including names and addresses, will become part of the administrative record and may be made available to the public. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may request at the top of your document that we withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
