BILLING CODE 9110-04-P

DEPARTMENT OF EDUCATION

34 CFR Chapter III

American Indian Vocational Rehabilitation Services Program; Proposed Waivers and Extensions of the Project Periods

AGENCY: Office of Special Education and Rehabilitative Services, Department of Education.

ACTION: Proposed waivers and extensions.

CFDA Number: 84.250J.

SUMMARY: For 60-month projects initially funded in fiscal year (FY) 2007 under the American Indian Vocational Rehabilitation Services (AIVRS) Program, the Department proposes to waive the regulations that generally limit project periods to 60 months and that restrict project period extensions involving the obligation of additional Federal funds. The Department also proposes to extend the project period until September 30, 2013, for the AIVRS grantees whose awards are scheduled to expire on September 30, 2012. The proposed waivers and extensions would enable the eight AIVRS grantees in the FY 2007 funding cohort to request and continue to receive Federal funding beyond the 60-month limitation contained in the Department's regulations, so long as the grantees are meeting the AIVRS program and other applicable requirements. Further, if the proposed waivers and extensions are made final, the Department would not announce a new competition in FY 2012 or make new awards in FY 2012.

Background

The eight AIVRS grantees, selected based on the 2007 AIVRS notice inviting applications (2007 NIA) published on March 14, 2007 (72 FR 11851), provide vocational rehabilitation services to American Indians with disabilities who reside on or near Federal or State reservations as authorized by section 121 of the Rehabilitation Act of 1973, as amended (the Act) (29 U.S.C. 741).

The project period for the eight AIVRS grantees is scheduled to end September 30, 2012. Section 121(b)(3) of

the Act provides that the Department has the authority to make an AIVRS grant effective for more than 60 months, pursuant to prescribed regulations. For these projects, the Department proposes to waive the requirements of 34 CFR 75.250 and 34 CFR 75.261(c)(2), which limit project periods to 60 months and restrict project period extensions that involve the obligation of additional Federal funds. The Department also proposes to extend the project period for the eight AIVRS grantees from October 1, 2012, through September 30, 2013. The proposed waivers and extensions would enable the eight AIVRS grantees to request and continue to receive Federal funds beyond the 60-month limitation set by 34 CFR 75.250.

The Department makes this proposal, consistent with the Department's commitment to excellence and continuous improvement, because a question was raised by the U.S. Government Accountability Office (GAO) in a report released on May 9, 2012, concerning the Department's practice for determining eligibility under the AIVRS program. The report is titled *Federal Funding for Non-Federally Recognized Tribes*, GAO-12-348, and can be found on the GAO Web site at www.gao.gov/products/GAO-12-348.

In the report, the GAO made a finding in which it noted that the Department's interpretation of reservation used in determining eligibility under the AIVRS program raised substantial questions for GAO about the eligibility of State-recognized tribes that are not located on State reservations, but rather are located on a defined and contiguous area of land where there is a concentration of tribal members and in which the tribe is providing structured activities and services, such as the tribal service areas identified in a tribe's grant application. The GAO recommended that the Secretary review the Department's practices with respect to eligibility requirements and take appropriate action with respect to grants made to tribes that do not have Federal or State reservations.

In order to comply with the GAO's recommendation, we believe it is advisable to maintain funding to existing AIVRS projects during the time period the Department is implementing the GAO recommendation and not to hold a new AIVRS competition in FY 2012. The Department has determined that it is not advisable to announce a new competition under which entities would be expected to have the burden of proceeding through the application process while the Department reviews

the eligibility requirements for this program.

Instead, we believe it is preferable in administering the AIVRS program for the Department to review requests for continuation awards from the eight grantees based on the 2007 NIA and, where appropriate, extend the currently-funded projects through September 30, 2013. The maintenance of the status quo while we conduct this review is in the public interest.

If these proposed waivers and extensions are made final for the eight AIVRS grantees selected based on the 2007 NIA, we will base our decisions regarding annual continuation awards on the program narratives, budgets, budget narratives, and program performance reports submitted by these eight AIVRS grantees, and on the requirements in 34 CFR 75.253. Any activities to be carried out during the year of continuation awards would have to be consistent with, or be a logical extension of, the scope, goals, and objectives of each grantee's application, as approved following the 2007 AIVRS competition. If we publish the proposed waivers and extensions as final, we would award continuation grants to each grantee that is making substantial progress performing its AIVRS grant activities.

The proposed waivers of 34 CFR 75.250 and 34 CFR 75.261(c)(2) and extensions of the project periods, would not exempt the eight AIVRS grantees from the appropriation account-closing provisions of 31 U.S.C. 1552(a), nor would they extend the availability of funds previously awarded to the eight AIVRS grantees past the five years provided for in 31 U.S.C. 1552(a). Under 31 U.S.C. 1552(a), appropriations available for a limited period may be used for payment of valid obligations for only five years after the expiration of their period of availability for Federal obligation. After that time, the unexpended balance of those funds is canceled and returned to the U.S. Treasury Department and is unavailable for restoration for any purpose (31 U.S.C. 1552(b)).

Regulatory Flexibility Act Certification

The Department certifies that the proposed waivers and extensions would not have a significant economic impact on a substantial number of small entities.

The small entities that would be affected by these proposed waivers and extensions are the eight grantees selected based on the 2007 NIA currently receiving Federal funds and any other potential applicant for the

estimated 8 or 9 awards for which there would have been a competition.

The Department certifies that the proposed waivers and extensions would not have a significant economic impact on these entities because the proposed waivers and extensions impose minimal compliance costs to extend projects already in existence, and the activities required to support the additional year of funding would not impose additional regulatory burdens or require unnecessary Federal supervision.

BILLING CODE 4000-01-P

ACTION: Advance notice of proposed rulemaking.

SUMMARY: The Postal Service is considering the adoption of a new criterion for eligibility of Bound Printed Matter (BPM) parcels by adding a physical density threshold for individual mailpieces.

DATES: Comments on this advance notice are due September 10, 2012.

ADDRESSES: Mail or deliver written comments to the manager, Product Classification, U.S. Postal Service, 475 L'Enfant Plaza SW., Room 4446, Washington, DC 20260-5015. You may inspect and photocopy all written comments at USPS® Headquarters Library, 475 L'Enfant Plaza SW., 11th Floor North, Washington, DC, by appointment only between the hours of 9 a.m. and 4 p.m., Monday through Friday. Call 1-202-268-2906 in advance for an appointment. Email comments, containing the name and address of the commenter, may be sent to: MailingStandards@usps.gov, with a subject line of "New Eligibility for BPM Parcels." Faxed comments are not accepted.

FOR FURTHER INFORMATION CONTACT: Kayla Dobbs at 202-268-6753, or Wm. Kevin Gunther at 202-268-7208.

SUPPLEMENTARY INFORMATION: BPM parcels is an economical ground-based product containing qualifying bound printed matter, weighing no more than 15 pounds and requiring postage payment by permit imprint. BPM is primarily used by commercial shippers who do not require expedited delivery. This product is not available for purchase at Post Office™ retail units and is not typically used by non-business mailers.

Statutory requirements under title 39, U.S. Code, require that each class of mail or type of mail service bear the direct and indirect costs attributable to that class or service. In this regard, the Postal Service expenses related to the BPM parcel product continues to exceed the revenues generated by its sales. In fiscal year 2011, BPM parcels realized a 98.8% cost coverage.

Greater efficiency in the packaging of BPM parcels will provide for more expedient handling of BPM parcels and will contribute to the cost coverage of the BPM product. To that end, the Postal Service is considering the implementation of a new minimum mailpiece density requirement for BPM parcels, with an effective date targeted for July, 2013.

Less densely prepared parcels also tend to result in a higher incidence of conveyance problems on automated
