SUPPLEMENTARY INFORMATION: OMB approval of this ICR would continue PRA authorization for the information collection requirements contained in three regulations promulgated under the Employee Retirement Income Security Act of 1974 (ERISA) that facilitate the termination of, and distribution of benefits from, individual account pension plans that have been abandoned by their sponsoring employers. The first regulation establishes a procedure for financial institutions holding the assets of an abandoned individual account plan to terminate the plan and distribute benefits to plan participants and beneficiaries, with limited liability. The second regulation provides a fiduciary safe harbor for making distributions from terminated plans on behalf of participants and beneficiaries who fail to make an election regarding a form of benefit distribution. The third regulation establishes a simplified method for filing a terminal report for abandoned individual account plans.

The ICR also takes into account to a class prohibited transaction exemption (PTE 2006-06) that permits a qualified termination administrator (QTA) of an individual account plan that has been abandoned by its sponsoring employer to select itself or an affiliate to provide services to the plan in connection with the termination of the plan, to pay itself or an affiliate fees for those services, and to pay itself for services provided prior to the plan's deemed termination, and class Prohibited Transaction Exemption 2004-16, which are the notice and recordkeeping requirements contained in PTE 2004-16, which permits a pension plan fiduciary that is a financial institution and is also the employer maintaining an individual account pension plan for its employees to establish, on behalf of its separated employees, an Individual Retirement Account (IRA) at a financial institution that is either the employer or an affiliate, which IRA would receive mandatory distributions that the fiduciary rolls over from the plan when an employee terminates employment.
