Foreign-Trade Zones Board

[B-54-2012]

Foreign-Trade Zone 143—West Sacramento, CA

Application for Extended Production Authority; Subzone 143D, Grafil Inc. (Carbon Fiber Production); Sacramento, California

An application has been submitted to the Foreign-Trade Zones Board (the Board) by Grafil Inc. (Grafil), operator of Subzone 143D, requesting to extend production authority at its facilities located in Sacramento, California. The application conforming to the requirements of the regulations of the Board (15 CFR 400.23) was docketed on July 26, 2012.

Subzone 143D was approved by the Board in 2009 at two Grafil facilities located in Sacramento, California (Board Order 1620, 74 FR 24798, 5/26/2009). Activity at the facilities (110 employees) includes the production, warehousing and distribution of carbon fiber using polyacrylonitrile (PAN) precursor.

Grafil's subzone and production authority were approved for a period of five years, until May 7, 2014 (Board Order 1620, May 7, 2009; 74 FR 24798, 5/26/2009). The current application is requesting to extend the FTZ production authority indefinitely. Grafil sources PAN precursor (duty rates, 7.5% or 8%) from abroad (representing 35% of the value of the finished product).

Production under FTZ procedures could exempt Grafil from customs duty payments on the foreign PAN precursor used in export production. The company anticipates that some 45 percent of the plant's shipments will be exported. On its domestic sales, Grafil would be able to choose the duty rate during customs entry procedures that apply to carbon fiber (duty free) for the foreign PAN precursor. Customs duties also could possibly be deferred or reduced on foreign status production equipment. The request indicates that the savings from FTZ procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, Diane Finver of the FTZ Staff is designated examiner to evaluate and analyze the facts and information presented in the application and case

record and to report findings and recommendations to the Board.

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is October 1, 2012. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to October 15, 2012.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 2111, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230-0002, and in the "Reading Room" section of the Board's Web site, which is accessible via www.trade.gov/ftz.

For further information, contact Diane Finver at Diane.Finver@trade.gov or (202) 482-1367.

Dated: July 26, 2012.

Andrew McGilvray,
Executive Secretary.

Certain Hot-Rolled Carbon Steel Flat Products From the People's Republic of China: Preliminary Results of 2010-2011 Antidumping Duty Administrative Review and Intent To Rescind in Part

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the "Department") is conducting an administrative review of the antidumping duty order on certain hot-rolled carbon steel flat products ("hot-rolled steel") from the People's Republic of China ("PRC"), covering the period of review ("POR") November 1, 2010 through October 31, 2011. As discussed below, the Department preliminarily determines that the PRC-wide entity made sales in the United States at prices below normal value ("NV"). If these preliminary results are adopted in our final results of review, the Department will instruct U.S. Customs and Border Protection ("CBP") to assess antidumping duties on entries of subject merchandise during the POR.

DATES: *Effective Date:* August 1, 2012.

FOR FURTHER INFORMATION CONTACT: Steven Hampton, AD/CVD Operations,

Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW, Washington DC 20230; telephone (202) 482-0116.

SUPPLEMENTARY INFORMATION:

Background

On November 29, 2001, the Department published in the **Federal Register** an antidumping duty order on hot-rolled steel from the PRC.¹ On December 30, 2011, the Department published a notice of initiation of an administrative review of the antidumping duty order on hot-rolled steel from the PRC covering the period November 1, 2010, through October 31, 2011, for 18 companies.² Of the 18 companies on which the Department initiated an administrative review, four companies stated that they did not export subject merchandise to the United States during the POR and 14 companies did not certify or apply for a separate rate. The Department addresses the review status of each company below.

Respondent Selection

Section 777A(c)(1) of the Tariff Act of 1930, as amended ("the Act") directs the Department to calculate individual weighted-average dumping margins for each known exporter or producer of the subject merchandise. However, section 777A(c)(2) of the Act gives the Department discretion to limit its examination to a reasonable number of exporters or producers if it is not practicable to examine all exporters or producers involved in the review.

On January 18, 2012, the Department released CBP data for entries of the subject merchandise during the POR under administrative protective order ("APO") to all interested parties having access to materials released under an APO, and invited comments regarding
