

submitting the ICR to OMB for review and approval according to the procedure prescribed in 5 CFR 1320.12.

Executive Order 12862, "Setting Customer Service Standards," mandates agencies to identify their customers and survey them to determine the kind and quality of services they want and their level of satisfaction with existing services. The MSPB's customers and stakeholders include persons who file appeals with MSPB for agency actions taken against them (appellants), their representatives, and representatives of the agency which took the action.

These surveys will be used to evaluate how well we are serving our customers in terms of their perceptions of timeliness, fairness, accessibility, and sensitivity to their situation in deciding their appeals. We also have used customer surveys to determine the usefulness of the reports issued by the Office of Policy & Evaluation. As a result of these surveys we have established baseline performance measures for both our appeals process and merit systems review responsibilities.

SUPPLEMENTARY INFORMATION: This notice is in accordance with the Privacy Act requirement that agencies publish their amended systems of records in the **Federal Register** when there is a revision, change, or addition. The Postal Service™ has reviewed this system of records and has determined that this Customer Privacy Act System of

Records should be revised to modify Categories of Records in the System, Purpose(s), Retrievability, Retention and Disposal, and the System Manager(s) and Address.

I. Background

In its continuing effort to improve its value-added services, the Postal Service will launch two new programs in 2012. The first will assist business mailers with tracking mail pieces sent to their customers. The tracking of these mail pieces will utilize the 11-digit ZIP Code and/or an Intelligent Mail Barcode. The second will strengthen the digital relationship with consumers and aid all customers with package tracking and visibility within the Postal Service network and through other carrier networks.

Additionally, in June, 2012, the Postal Service made additional management and organizational changes.

II. Rationale for Changes to USPS Privacy Act Systems of Records

The Postal Service is enhancing our customers' visibility of their mailings. The first program will automate the process to provide business mailers with mail piece induction information. The second program will integrate tracking information from multiple carriers.

Lastly, in regards to the system manager title update, there is a continuing need to reflect changes in the identity or title of responsible officials.

III. Description of Changes to Systems of Records

The Postal Service is modifying one system of records listed below. Pursuant to 5 U.S.C. 552a(e)(11), interested persons are invited to submit written data, views, or arguments on this proposal. A report of the proposed modifications has been sent to Congress and to the Office of Management and Budget for their evaluation. USPS 820.200

Mail Management and Tracking Activity.
